FRESNO, CALIFORNIA, THURSDAY, SEPTEMBER 25, 1913.

PRICE FIVE CENTS

ULSTER UNIONIST LEADERS MEET TO FORM NEW PARLIAMENT

Six Hundred Delegates
Pledge Themselves to
Resist Home Rule

FORM CONSTITUTION

Carson Recognizes Trouble
Bound to Come In
Any Event

BELFAST, Sept. 24.—The embryo "Parliament of Ulster," at present known as the Ulster Unionist council, assembled here today in Ulster Hall to discuss plans for provisional government in the event of the home rule bill becoming law. Six hundred delegates were present. The Marquis of Londonderry, former lord lieutenant of Ireland, was the chairman. Sir Edward Carson, leader of the Ulster Unionists, all the Irish Unionist members of the House of Commons, the Duke of Albermarle, and many other peers and representatives from all parts of the province of Ulster attended.

Ful details of the provisional constitution of the province were communicated to the meeting for formal ratification. The expressness with which the participants regarded the procedure was exemplified in reports on the meeting, which declared:

"This nucleus of an Ulster parliament will put its hands to a document no less remarkable than the Declaration of Independence and as pregnant with possibilities of change in the political history of the country."

The meeting was held behind closed doors, but subsequently an official announcement was issued as follows:

"All the steps have been taken for repealing the decrees of a Nationalist parliament and for taking over the government of the provinces of Ulster in trust for the British nation."

The articles of the Ulster constitution were approved by the delegates.

Sir Edward Carson, in addressing the meeting, made a statement which is regarded as significant in connection with the current stories relative to negotiations between the government and the opposition on the subject of a settlement of the Irish question by agreement. He said:

"All most recognize that if the Home Rule bill should not be carried there will be trouble in the south of Ireland, and if it should be carried there will be trouble in the north. Great Britain must be accepted as the arbiter between the hostile parties."

Retired Admiral Lord Charles Beresford, Unionist member of Parliament for Portsmouth, is among those chosen as members of the Ulster provisional government.

SANTA FE LOSES RICH OIL LEASE

Rights Worth \$5,000,000 Revert to Owners, Orders
Kern Judge

(Special to the Republican.)

BAKERSFIELD, Sept. 24.—Judge J. E. Prewett of Tulare county, in an opinion filed in the local Superior Court yesterday, declared that the Chumash-Cañon Midway Oil Company, owned by the Santa Fe, has forfeited its lease to \$5,000 acres of oil land in the Midway field owned by J. W. Jameson, T. J. Wangenfeld and L. Stroessburger, and valued at \$5,000,000. Grounds for forfeiture are non-performance of the terms of the lease by failing to do the required drilling and to pump completed wells, to conserve the oil in tanks instead of pump holes, to use diligence in patrolling the land, and for moving away valuable machinery, and using the land as headquarters in carrying on extensive development work on adjoining land owned in fee by the Santa Fe. The opinion sustains the complaint in that the Santa Fe driven world on its own property close to the leased land and cleaned away the oil, Judge Prewett agreed that the railroad should be held liable for such value which could easily have fulfilled the terms. The Santa Fe is more to lose, he says, than the plateau and if it were possible he would gladly impose substantial damages against the railroad. The land was located in 1900 by the present owners, who leased for thirty years to E. L. Doherty and others, and those sold their lease to the Santa Fe.

400 FEET OF PIER IS AT VENICE DESTROYED; POSSIBLY DYNAMITED

LOS ANGELES, Sept. 24.—Four hundred feet of the Mater pier at Venice was destroyed tonight either by the high seas or a blast of dynamite. Its construction had been discontinued several months ago owing to a labor disturbance.

Speculators said they saw a flash but the roar of the waves and the high wind prevented hearing any explosion. Dead fish were washed upon the beach. The police are now began an investigation.

The pier was being built by E. R. Mater, Los Angeles brewer and owner of the Venice baseball club. Mater and directors of the pier were meeting to night and discussing the continuation of the work.

Already about \$65,000 worth of concrete and steel construction had been done and the damage tonight was estimated at \$25,000. The pier was designed for pleasure purposes. It was being built at the foot of Center street in the resort town.

It was announced that it would be impossible to ascertain the exact cause of the damage until after a daylight investigation.

BIXBY WITNESS REFUSES TO TALK

Architect Morgan Avers
That He Might Incriminate Himself

LOS ANGELES, Sept. 24.—The attorney for the defense, George H. Bixby, the Long Beach millionaire on trial for alleged rape of seven girls, had been a victim of a blackmailing plot suffered a temporary setback today through the refusal of Osgarins W. Morgan, a prominent architect, to testify.

Morgan had been considered a star witness by the defense, which was already disappointed when his testimony was stopped by an injunction from his personal attorney, Whenton A. Gray, when the architect was asked:

"Do you know Maria Brown-Ley?"

Attorney Gray argued that if Morgan admitted an acquaintanceship with the girl, who is one of Bixby's accusers and a former inmate of the Juilliard "hostel," he would degrade himself in the eyes of his fellow men and possibly make himself liable to criminal prosecution. On behalf of Morgan, Gray declined to testify.

EXPOSITIONS WILL AID S. J. VALLEY

People Will Visit Both Cities Says San Diego Official

Walter D. Wagner, who is in charge of the county's participation in the exposition at San Diego in 1915, is in Fresno conferring with the exposition commission officials here regarding the exhibits to be displayed for an address here during the convention of the nurserymen in the middle of next month.

Wagner is of the opinion that the holding of two expositions in 1915, the San Francisco and the other at San Diego will be of great benefit to the people who live in the countries between these two cities as world visitors will in most cases visit both places and therefore have to pass through them in going from one city to the other.

Speaking of the matter last night Wagner said, "California will receive a great deal of good by the holding of the two expositions. San Diego and San Francisco are both only advertising California all over the world and are boasting it to such an extent that hundreds of thousands of visitors will be here that year. The best part of most of this work will be that thou-

BONDS BEING TRADED FOR PREFERRED STOCK

Two Local Banks Are Holding Out; Cleaning Up Work

Practically all of the old stock and debts against the Fresno-Hanford and San Joaquin Lumber Company have been turned into preferred stock with the exception of block held by two local banks, two small bonds at Singer and two more held in San Francisco. The old mortgage of the company cannot be canceled until all of the bonds have been turned into preferred stock.

A meeting of the directors of the railroad company was held yesterday afternoon at which much business, connected with the line was taken up.

The directors of the road are complying with every demand made by the Railroad Commissioners and hope to have all of the business cleared up by next week. L. H. Jones, the new manager of the line, left the first of this week for San Francisco and is attending to business there in connection with the interurban to Schenck.

BAY SADDLE HORSE TAKEN AT SUNNYSIDE

Superintendent Rose of a vineyard in the Sunnyside district reported to the sheriff's office yesterday that his bay saddle mare had been stolen from the end of the Sunnyside street car line Tuesday afternoon between 2:30 and 5 o'clock. The horse weighed about 1000 pounds, had a reached mane, and was branded "M" on the left hind leg. A cowboy saddle was on the horse. Deputies of the sheriff's office are sending out descriptions of the animal. This is the second time that a horse has been stolen from the end of the street car in the last two weeks.

COLORED PUPILS

GO ON STRIKE

TUCSON, Ariz., Sept. 24.—As a protest against alleged inadequate facilities offered by the Tucson school board every colored student is on strike today. It is charged that the school authorities failed to arrange for proper accommodations for the negro children when the state law segregating the blacks from the whites became effective.

Marshall Field Said:

"The man who condemns a proposition without investigation confesses his stupidity."

The man or woman who puts aside the daily newspaper without reading the advertising is missing something worth investigating.

There is a personal message in each advertisement. It may be the very message you are seeking. It costs nothing to look. The chance may send your feet speeding the way you want to go.

Make use of your opportunities.

One of the biggest opportunities you have is the advertising in papers like The Republican. Make it pay you.

Make it be your guide, your servant, and your companion. Be among the "Do It Now People" who accomplish things in this world.

Men and women who do things neglect no chance to know things, and one of the best sources of live, up-to-date information is advertising. Your eyes can prove this in a minute.

NuBone Corsets

—are both healthful and stylish. The patented steel-woven wire stays that are used in the famous Nu-Bone corsets make them the most hygienic, and these same patented stays are responsible for the graceful figures of Nu-Bone wearers, \$1.00 and upward.

MERCHANTS TO CLOSE SHOP WEDNESDAY P. M.

Will Honor Fresno With Their Presence At the Fair That Day

The merchants of this city will close their stores next Wednesday afternoon in honor of Fresno Day which will be celebrated October 1 at the Fresno district fair. This announcement was made last night by P. M. Harwood, secretary of the Merchants' Association of this city.

The merchants have followed this custom for several years on Fresno Day which is held on the first Saturday in October to enable their employees to visit the fair on its afternoon while it is in session.

All of the merchants who are members of the association have agreed to close their stores on that date and it is believed that the other merchants will follow suit in honor of the city.

Special arrangements have been made by the officials of the fair association for a grand program of entertainments on that afternoon and the evening of the same day for the enjoyment of the visitors who honor Fresno with their presence at the fair.

Administrating Water

Editor, Republican—We hear many people grumbling about the water in this valley and the unjust division of the supply of water, I feel it my duty to tell my experience with a system of water distribution in the district where I once lived for about fifteen years. For five years of that time we had the same system we have in this valley, and Tom, Dick, and Harry would pull the drops and half of the people would drown out and the other half dry out. Neighbors were always at swords' point. Law suits and fist fights were regular, and very often some one was shot—all because they did not have the proper water system.

Finally the people got together and agreed on a same water system. They did not have to change human nature, only the environment. The people all quit fighting, all had plenty of water, all raised crops and never drowned out—some under—that same system—and can say that after the first year I never heard of the last bit of trouble. No doubt it is the same today and always will be so long as they keep the same system.

Here is an outline of the system: Start at the big headgate, put a gauge on all boxes through all the laterals, so it will show just the number of inches of water that goes through each and every box. Make each and every box so you can look the gate at any desired place and fix all laterals the same, so no person can raise or lower the gate but the ditch workers, who are to carry the keys. Now you begin to irrigate. And here is a very important point—begin in time to turn on the water and let the main canal fill up and run to the mouth before it is lowered. Then begin opening the gates at the irrigation laterals in the months of the canals, or the lower end of the canals. It has been demonstrated thoroughly time and time again that to open the laterals from the farther end will have a tendency to draw the water and give better service. It is very nearly impossible to ever get the water to the end of the big ditch if you begin to open up the laterals at the head of the ditch. The water will not run normally so well, as it slopes the force of the water in the main canal, just as turning on all the little hydrants in the city when you are fighting fire has the same effect.

This system does not cost much, considering the benefit, and it will pay for itself twice the first year.

W.M. STRINGER.

Not Getting Water

Editor, Republican—In this part of the country we have been discussing the water question from time to time among ourselves, and the ideas exchanged are your paper on the 13th by Mr. H. A. Ross, above agree with our conclusions. We have been so sorely disappointed in the last two years with the water proposition, that we feel we must have some relief. If we can not have arranged to get the water from Kings river for irrigation, then we will demand to have the water company now pretending to furnish water, cancel their water rights, and we will put in pumping plants, or put down artesian wells. The farmers in this part of the country are not getting fifty per cent of the possible results from their farms on account of a lack of water. As long as we are depending on this present system to furnish us water we will not make the effort to develop water from the ground that we would if said system was canceled. Therefore I conclude that the system which we now have is a detriment or a drawback to much of the country. It seems to me that not furnishing sufficient water to develop the best results of our soil. The present water system is spread over more territory than it can serve, except in flood seasons.

AN IRRIGATOR.

Lanare, Sept. 24, 1913.

FORTY-NINE ALIENS SEEKING CITIZENSHIP

For the quarterly hearing today before the two judges of the Superior court, the names of 49 aliens are presented as applicants for final naturalization papers. The court room corridor will be crowded by them and their 32 spouses, witnesses. Applications have also been made by 61 others whose naturalization petitions will be heard on the next quarterly hearing day. That day which would have fallen on Christmas day has been postponed until January 2, 1914, by the judges sitting by U. S. Naturalization Examiner Frederick Jester. He has figured it out that a quarterly naturalization hearing day will not again fall on a Christmas day for 7 years.

NOTICE TO CONTRACTORS

Proposals will be received up and including Sept. 25, 1913, for plowing, checking, ditching, boxes, gates, etc., about 600 acres to alfalfa, bids to be in units of 50 acres.

Information and details, address W. H. MERRICK, Kerman, Cal.

SENATOR POMERENE CARRIES FIGHT FOR BRANDY TAX UP TO PRESIDENT

Californians Issue Brief In Reply To Circular Sent Out By Eastern Wine Makers; Declare All Statements To Be False

WASHINGTON, Sept. 24.—Senator Pomerene of Ohio today carried to President Wilson his fight for the Senate amendment to the tariff bill imposing an equal internal revenue duty upon all spirits used in the manufacture of sweet wines.

"I merely put the President in possession of the facts," said the senator as he left the executive office. He added that the President had not committed himself on the subject. The California wine men are fighting the whole challenge.

PURE CALIFORNIA WINE

"All those wine makers make pure wine from fresh ripe grapes. The spirit is in fortifying those wines and made from the same grapes from which the wine is made."

"The commanding officers, Missourians and others admitted at the recent hearing on the subject before the Senate Finance committee that they cannot make wine from their grapes, and so they insist that they must be allowed to extract excessive acidity, and sugar to induce fermentation and the resulting absolute strength for preservation."

"The last protest of the Eastern wine makers at the action of the tariff conference summarized was that there will be a loss of millions in revenue if the \$1.10 tax is not imposed on the California industry; and that as the Eastern wine makers are willing to pay the tax, the California wine makers ought to pay it."

The reply of the Californians took up, paragraph by paragraph, the Eastern circular, tearing every statement to tatters and declaring that the circular "is a studied misstatement of facts from its first syllable to its last. Even the title is misleading."

In the Ohio-Missouri circular, was the following plan:

"We earnestly ask you to stand for and support the Pomerene amendment upon the principle that all citizens en-

CHILDLESS WOMEN

These women once childless, now happy and physically well with the help of Mrs. F. Purchaser's Vegetable Compound. Write all this possible. Here are the names and correct addresses—write them if you want to, and learn much. They are only a few out of many thousands.

"Our first baby is strong and healthy and we attribute this result to the timely use of your compound."—Mrs. Fred Youllan, Kent, Oregon.

"I love my life and my baby's good health to your compound."—Mrs. W. G. Berken, R. F. D., No. 2, Troy, Alabama.

"I have three children and took your compound with entire confidence."—Mrs. John Howarth, Wilmington, Vermont.

"I have a lovely baby boy and you can tell me more than that he is a 'pinkish baby.'—Mrs. Emma Frazer, 32 Monroe St., Carlstadt, N. J.

"We are at last blessed with a sweet little baby girl."—Mrs. G. A. Lefkowitz, Montegut, La.

"I have one of the finest baby girls you ever saw."—Mrs. C. E. Gooners, 1012 S. 6th St., Wilmington, N. C.

"My husband is the happiest man alive to-day."—Mrs. Clara Darnake, 307 Marlita St., Buffalo, N. Y.

"Now I have a nice baby girl, the joy of our home."—Mrs. Dorothy Cox, No. 117 So. Gale St., Worcester, Mass.

"I have a fine strong baby daughter now."—Mrs. A. A. Giles, Dowdville, N. Y., Route 4.

"I have a healthy baby daughter now."—Mrs. A. A. Giles, Dowdville, N. Y., Route 4.

MASS MEETING

The mass meeting tonight of the citizens of Fresno will give an opportunity for concrete expression of purposes that have long been held in abeyance in this community. The demand for a city beautiful movement has often been given voice before, but only by individuals or by single organizations. This work has been good, but it has been scattered. For one thing, Fresno city in its youth has been given over of necessity to money making. Now that it is attaining a certain dignity of age, it can well afford and is affording to give some attention as a community to the needs of life.

It is understood that there is no pre-conceived plan of action which the meeting of tonight is merely to endorse. There will doubtless be many ideas presented, and of these the best and the most feasible will naturally be selected as a result of the threshing-out process. It may merely be said in advance that there is no need of laying out any plan that will encroach upon either the functions of the city council or the park commission on the one hand, or of the rights of property owners on the other. There is a large field of action in between, in which the city beautiful committee, to be chosen or at least provided for tonight, may do a valuable service to Fresno. It will, for one thing, devote itself with singleness of purpose to the subject in a way that the city council, with its variety of duties, cannot do. It will not have the direct and specific responsibility of the park commission; it may draw up plans for general improvement and for the removal of recognized eyesores and nuisances, and furthermore aid in the formation of local improvement clubs, as well as encourage by general suggestions action for improvement by property owners. Suggestions which if directed to one property owner might well be considered as impertinent would be recognized as appropriate if applicable alike to all in the city.

Tonight's meeting will be an expression, above all, of a purpose of unofficial cooperation to make the city of Fresno attractive as well as prosperous, as a home for its citizens.

BRIEF EDITORIAL

FANCIES SELECTED

What Nebraskans Must Presently Confront

The alarm clock wakes you. It is pitch dark, but you had set the gong for 7:30 and sounds of snow shovels on neighboring sidewalks warn you that the alarm is probably right. You extract an arm from the embrace of six thicknesses of blanket and turn on the light. The thermometer at the head of the bed registers 33. A desperate snatching of the will and you spring out of bed. A wind "rustling" on of clothes, left half buttoned by fast-tasped, half unbuttoned fingers, and you rush for the colosty. The fire is ready. You dash out of doors and examine the morning paper from the snowbank around the corner. Returning you don an overcoat and sit down to breakfast fondling the hot coffee cup lovingly in your blue fingers. The heat ascends and the thermometer registers the life saving temperature of 43 degrees. Breakfast over, you seize a shovel and fur mittens and do your duty by the sidewalks. You telephone for another barrel of coal with the coal man will ever live. You call him and he comes into the car and drives away. You stopped the car and you have the delight of a two-mile walk to your office.

But while the insinuation that any President would appoint to the sort of reserve board which the bankers automatical as political, a man capable of this sort of treachery is unthinkable, it is unfortunately not so difficult to conceive that the bankers themselves, if they had the doing of it, might make exactly this sort of appointments. High public officials whose venality is of this gross and treasonable sort are so rare as to be almost unheard of. But high railroad officials who run the railroad, not for the benefit of the business and its stockholders, but for the personal benefit of its officials in their personal speculations, have been far from unknown, or even rare, in the history of American railroading. The greatest trust in the United States and the one most closely related to banking is the insurance business. The Hughes investigations in New York a few years ago demonstrated that all the great insurance companies, at that time concentrated in New York, which then had custody of the largest trust fund ever entrusted in the history of the world to a single set of hands, had been run, without exception, for the personal and dishonorable if not dishonest benefit of their high officials.

This is, of course, no longer true of those companies which have been baptized by fire. But the most difficult task of the insurance commissioners and the blue-sky commissioners everywhere is to prevent the starting of new companies, both of life insurance and fire insurance, on exactly this basis. The California state railroad commission, a body not given to making rash statements without proof, intimated only a few weeks ago that high officials of a former administration of the Southern Pacific Railroad Company had made a purposely impudent contract with the Wells Fargo Express Company for the deliberate purpose of increasing the value of their personal holdings in Wells Fargo stock at the expense and to the injury of the railroad company under their management. Whether this suggested charge was true or not, there is no question but all that similar charges have been true as to the management of a large number of the ex-

press businesses in the United States.

The great problem in the management of the trusts has been to get directors and managers who would be忠誠 to the stockholders instead of valuing those stockholders for the personal profit of themselves and associates. Whatever may be the contempt of politics manifested by business, and whatever may be the inherent superiority in honesty of small business as contrasted with big business, big business has no right to spurn at the honesty nor the loyalty of big politics. Politics doubtless does produce many petty grafters and much petty inefficiency. Small business has managed in general to combine both honesty and efficiency. Big business has until recently been characterized by neither honesty nor efficiency in its management, and the present improvement in the character of the management of big business has been effected almost exclusively by the much despised political control. Politics, on the other hand, has been almost always both honest, honorable and loyal. The argument of the bankers that the central administration of the banking system should be in the hands of bankers chosen by the banks, is based wholly on the tradition that private business would produce honest and loyal management and that politics would not do so. This is a tradition devoutly believed and loudly proclaimed in business circles, but most of the men who proclaim it merely accept it as an axiom without ever inquiring whether the facts sustain it or not. Actual examination of the facts indicates exactly the contrary conclusion.

DONKEY RAMPT

It is very remarkable that the donkey fight of last year in the Fresno high school seems to have been carried over into the present term. It had been hoped by the patrons of the institution that the passing狂 about the career of the donkey would have passed away, with the passing of the class concerned, but it seems that the donkey is still troubling about the academic hours to the serious disturbance of the schoolmen.

If school authorities and school children cannot enter into a dignified partnership in the control of class funds, preserving both the authority of the faculty and the privilege of boys and girls to useful activity in managing the fruit of their efforts, would not be best to dissolve the partnership, divide the assets and end the wrangle, in view of the more serious purposes of school life? And if the school stands in need of a picture, we can all subscribe to a fund to buy one, to help promote an era of good feeling.

POLITICS VS. BUSINESS

In his speech introducing the currency bill, Chairman Glass described the indignation of President Wilson at a suggestion from a banker, which the President assumed to be an insinuation that his or some successor might appoint to the federal reserve board some one who would use his power to the personal advantage of himself or his friends.

Possibly the banker did not intend just this insinuation, and probably if he did he was grossly mistaken. It is practically unthinkable that any President would appoint an official to so high and responsible a place, who would be capable of this sort of venality. Probably what the banker intended to suggest was that the President would appoint politicians who would determine a business question for other than business reasons, and there may possibly have been some point to this objection.

But while the insinuation that any President would appoint to the sort of reserve board which the bankers automatical as political, a man capable of this sort of treachery is unthinkable, it is unfortunately not so difficult to conceive that the bankers themselves, if they had the doing of it, might make exactly this sort of appointments. High public officials whose venality is of this gross and treasonable sort are so rare as to be almost unheard of. But high railroad officials who run the railroad, not for the benefit of the business and its stockholders, but for the personal benefit of its officials in their personal speculations, have been far from unknown, or even rare, in the history of American railroading. The greatest trust in the United States and the one most closely related to banking is the insurance business. The Hughes investigations in New York a few years ago demonstrated that all the great insurance companies, at that time concentrated in New York, which then had custody of the largest trust fund ever entrusted in the history of the world to a single set of hands, had been run, without exception, for the personal and dishonorable if not dishonest benefit of their high officials.

This is, of course, no longer true of those companies which have been baptized by fire. But the most difficult task of the insurance commissioners and the blue-sky commissioners everywhere is to prevent the starting of new companies, both of life insurance and fire insurance, on exactly this basis. The California state railroad commission, a body not given to making rash statements without proof, intimated only a few weeks ago that high officials of a former administration of the Southern Pacific Railroad Company had made a purposely impudent contract with the Wells Fargo Express Company for the deliberate purpose of increasing the value of their personal holdings in Wells Fargo stock at the expense and to the injury of the railroad company under their management. Whether this suggested charge was true or not, there is no question but all that similar charges have been true as to the management of a large number of the ex-

A BOY IN FALL TIME.

It's a Hard Life.

The WORLD'S MYSTERIES

MYSTERIES of ANTIQUITY

THE IRON CROWN OF ITALY

The Iron Crown of Italy is the most famous of all coronets. No one knows by whom or for whom it was made, and its history up to the end of the sixth century is in doubt. The earliest historical notice of the Iron Crown is that it was used at the coronation of Agelafus, King of Normandy, in the year 501.

The Iron Crown of Lombardy is so small, the diameter being only 5 inches and the circle only 2½ inches in width, that doubts have been cast as to whether it was originally intended to be worn on the head or was merely meant to be a native crown.

The legend as to the iron being of the nail of the cross is refuted by Mattoori and others, and cannot be tested for lack.

How it arose or how

evidence came to be proposed in this legend, it is difficult to surmise.

Therodolinda was the wife of King Athelred. In 531 the crown was used at the coronation of Agelafus. In 751 at that of Charlemagne and by thirty-four other sovereigns. Henry VII of Germany was crowned with it in 1412; Frederick IV in 1452; Charles V in 1530 and Emperor Ferdinand I in 1522. In 1553 it was given by the Emperor of Austria to the King of Italy, Victor Emmanuel.

Tomorrow—Was John Law Gambler or Scapegot?

FEAR.
Was anything ever done by one who was afraid?
Would Columbus have made his discovery of the New World if he had been burdened with dark forebodings?
Would the gospel ever have been preached to the remotest parts of the world if the missionary had feared his mission?

Would there have been a United States if the signers of the Declaration of Independence had feared for their lives, as well they might?

Would the railroads have crossed the continent and ploughed the desert, and would our captains of industry have had the courage of their convictions by building our industries—the wonder of the world in size, output and value—if they had been timid while writing millions?

Or who could ever win by a general who feared? Was ever a great cause vindicated by one without a strong heart and undying hope? Was ever a prize secured by a competitor who did not enter the race believing he must win?

Is anything more contemptible than cowardice? Is anything more noble than courage? Is anything more foolish than fear, or anything sweeter than confidence in an age of unrest?

—John Kendrick Bangs

TO THE TOILER.

When tasks are hard upon the upward slope
That is the time that calls for cheer
And hope.

"Tis when the summit's reached and
all seems clear.

Twixt well-to-o'p' the heart to
thoughts of fear.

So courage take, as on the rocky road
You upward toil, nor bend beneath
your load.

Fear not the dangers imminent and
near—

He's far worse off who's naught ahead
of him!

A LINE OF CHEER EACH DAY OF THE YEAR

BY JOHN KENDRICK BANGS

TO THE TOILER.

unreason, suspicion and disturbance.

Let us turn from the dismal swamps and lift our eyes to the hills. Let hope inspire and courage strengthen and the battle will be won.

This is the lesson to teach the children in our schools, to tell to the patient toiler at his work, to speak to the anxious business man at his desk, to impress upon the preacher in his pulpit and the counselor in the hall of legislation.

Rugs And Reputation

EVERY "WHITTALL" rug we sell, not only helps our rug department, but our entire store. It adds to our reputation as handlers of satisfactory merchandise, and some of the largest accounts on our books can be traced to the first sale of a "WHITTALL" rug. These are indeed beautiful rugs. They combine the modern, intelligent methods of manufacture with the wonderful designs, colorings and qualities of Oriental rugs. The value of a "WHITTALL" rug is enhanced by the steady wear in a private home, as its appearance becomes lustrous and mellow. We show the rugs in a full complement of designs, colors and sizes.

Suit for divorce was brought yesterday by N. P. Harrison against Anna Harrison on the ground of desertion. E. A. Williams is her attorney.

Upon the plea that he had the promise of a job, City Justice Graham yesterday released Harry Fitzwater, charged with shooting on the hooded side of the park, under a ten day suspended sentence.

The fire department was last night called to the store of the Fresno Brown Works at Kern and P Streets where a blaze of unknown origin had been discovered. The damage will amount to \$50.

L. P. Neil swore to a complaint in City Justice Graham's court yesterday charging L. J. Beasley, alias L. J. Orte, a youth, with forgery. Beasley was arrested in Visalia last Saturday night and returned to Fresno Sunday. He also passed his begins check in that city.

Mrs. Fausto Epperson, was given a trial yesterday afternoon before City Justice Graham on a charge of disturbing the peace and the case was taken under advisement. She was arrested on complaint of Mrs. J. T. Finzer as the outgrowth of a neighborhood quarrel.

Public Administrator Andrews reported yesterday a simplified administration of the \$26,750 cash estate of Max Monte, late of Huachuca. All was spent in funeral and administration expenses, the funeral costing \$175.50.

Attorney Frank Knake took formal judgment yesterday as trustee of the French against W. H. Children, M. J. Yancey and James R. Parrish on \$5,000 of February 15, 1910, which they and G. P. Baley, since deceased, had signed. The note was for one year at 12 per cent interest payable in advance every six months. The only payment on the note has been interest up to February 15, 1913.

26 ARE ON THE LIST
OF THE SUPERVISORS
FOR DEPUTYSHIP JOBApplicant Wolfe Breaks Out
In An Addendum In
Humorous Vein

The county supervisorship of weights and measures has become one of the big jobs about the courthouse. With another application yesterday for the vacant position, the list of applicants now numbers 26. The vacancy in the newly created office has also become the whipping post of humorous epistles.

George W. Wolfe of 275 Ashby street recently made application for the supervisorship, and yesterday followed the supervisors with the following letter:

"Honorable Sirs: You have my application for the appointment to the new office of county scales, as this is by way of addendum:

"Thinking you might want to know something more concerning the appointment, I wish to say that I am a Danish, Swedish, nor Irish, nor son of a member of any political clan or following, hence I cannot make any political friends or foes there."

"I am and always have been a Democrat, and Democratic principles are as far as I can remember settled in my blood and bones that I am convinced no man who has not been born a Democrat has ever been born a Democrat."

"I feel that I am such a character that I could hope that I could even treat you fairly, justly, and not even a Democrat could hope to receive justice in the discharge of my official duties of the very trustworthy office I am seeking at your hands."

The twenty-sixth applicant for the job is E. P. Lewis who says he is 40 years of age, is married, has resided in the county since 1890 at Selma since 1897 and has been in the postal department service continuously since 1903.

LOCAL BREVIETIES

The preliminary examination of H. J. Barnes, charged with wife desertion, was held yesterday afternoon in the police court and dismissed because of insufficient evidence.

F. J. Hobbs, as president of the First Baptist church of this city, made court application yesterday for leave to sell lots 34 and 35 in block B of Hill's addition to the Memorial Baptist church in Fresno as it has need of the money and none specially of the premises.

C. B. Wilson swore to a complaint before Police Judge Bridges yesterday charging W. C. Williams of 625 M street with keeping a vicious dog. Williams cited by Detective Gehring to appear in court today at 10 o'clock. The dog is alleged to have bitten a little girl.

Promulgating "Judgment in the case of the Hon. R. Kammerman, who having been found guilty of felonies etc., asked that he be deported will be pronounced this afternoon. Judge Austin will also forego his Statuary half-day to try Peter Becker at his request for an appeal with a deadly weapon.

He said Becker was given yesterday by the Fresno Grand and Masonic Cemetery and the Leavenworth Lands, Ltd., that it will on Monday next before Judge Austin give for the Leavenworth Lands, Ltd., its first annual meeting at the People's Hall, 10th and San Joaquin. The People's Hall contains the First Church, Water Street, the Leavenworth Land and Leavenworth Cemetery and the Lower Kings River Methodist Church. The injunction was not pressed at the time of the filing of the complaint because the litigation season was about closing and instigating winter not have served any remedial object at the time.

IN THE LODGE ROOM

KNIGHTS OF PYTHIAS.

Last night was social night at Fresno Lodge No. 125. After a short business meeting the members adjourned to the banquet room where a generous lunch had been spread. The social committee, and under the leadership of Brother Miller, the real work of the evening was begun in earnest. Needless to say full justice was done to the spread. Chancellor Commander Carter had a story saved up for the occasion as usual, and several visiting members responded with short talk under the head of "Good of the Order."

October 11th has been set as the date for conferring the ranks of knighthood on a class of neophytes at luncheon at Fresno Lodge No. 125 and at Progressive Lodge No. 39.

FRATERNAL BROTHERHOOD.

Fresno City Lodge No. 22 met in regular session last evening with unusually good attendance.

The applications of Wm. E. Webster, Nellie Webster, Smith H. Coates and Clarence D. Haggerty were received, Clarence D. Haggerty being obligated.

A large glass is in line to be initiated next Wednesday evening and a big time is anticipated.

The sick benefit claim of R. S. Freeman was read and ordered paid.

The cool weather having set in, dancing will be the main entertainment of the evening from now on.

Later in the evening ice cream was served and everyone had a good time in general playing cards.

BIRTHS, MARRIAGES, DEATHS

BORN

HYGELUND—In Fresno, September 23, 1913, to the wife of P. J. Hygeland, a daughter.

SOCIETY

An early morning wedding that is absorbing the interest of the younger set this morning is that wherein Miss Doris Ziske, the attractive young daughter of Mr. and Mrs. J. H. Ziske, and Gulf Hawk, son of Dr. and Mrs. C. A. Hawk, became the principals. The ceremony is to take place at the Ziske residence on T street, with the wedding guests invited to the relatives of the bride and groom. The rooms are to be garnished with a wealth of Kilberry roses for the occasion, carrying out the prevailing color pink. The bride will be charmingly gowned in her going away frock a modish tailored affair of mauve wool. In tones of taupé, the skirt with an invisible stripe, and the coat brocaded. She will wear a corsage of white orchids and real orange blossoms and her hat is a stunning French model of mauve foundation trimmed with white aurope.

There will be no attendants and the marriage service will be read by Canon Robert W. Rhamee of the Episcopal Pro-Cathedral. A wedding breakfast will follow the ceremony, the table being dressed in pink coloring in resile after the wedding. They will have a choice cluster of Kilberry roses for the central decoration, and social doings of the younger married in the place cards miniature brides in etc. in Fresno, together with Mr. and

water color tints. Covers will be laid for fourteen.

The honeymoon trip is to include the famous sojourn in San Francisco and vicinity, after which they will go down to Carmel-by-the-Sea for a time. Upon their return, they will reside on the groom's ranch at Custer where an attractive bungalow has been made ready for occupancy.

Mrs. Lindsay R. Rogers and her daughter, Miss Helen Rogers are expected home about October 1, from a healthful sojourn in San Francisco and vicinity.

A wedding which will be solemnized in Los Angeles on Tuesday is of interest to a large number of Fresnoans whose college days at the University of California afforded an intimacy with the bride and groom-to-be. Miss Gertrude Hawk and Revel Miller, Miss Hawk is a popular member of the Delta Gamma sorority, which claims a number of Fresno girls in its list of members. The groom has had intervals at Orosi, and it is on his orange-breakfast will follow the ceremony, the table being dressed in pink coloring in resile after the wedding. They will have a choice cluster of Kilberry roses for the central decoration, and social doings of the younger married in the place cards miniature brides in etc. in Fresno, together with Mr. and

Mrs. Myron Miller, who have recently come from Los Angeles to make their home at Orosi. Mrs. Miller was formerly Miss Gertrude Miller of Fresno.

A week from tonight witnesses the commencement of the Thursday night classes which figure largely in the realm of study clubs, with Mrs. W. P. Miller at the helm. The club is planned to Shakespeare, with some modern drama and portions of the Bible. The first meeting will be devoted to summer experiences, which will be told in verse.

Mrs. Miller has assumed charge of two courses at the Normal school, the second meeting on Monday and Thursday mornings from 10:30 to 12 o'clock. As these are "open" classes, advantages being taken of this fact by a number of the fixtures of "high brow" literature.

Mrs. Emily Gundelfinger will entertain on Saturday afternoon at the Louis Gundelfinger residence on Calaveras street with a children's party, celebrating the second birthday of her little daughter, Louise.

The Good Intent Circle of the First Christian Endeavor of the Calvary Presbyterian church will meet with Mrs. C. A. Halbert at 2:30 o'clock this afternoon at her home, 903 Central avenue. All members are requested to be present.

Mrs. S. A. Leisinger leaves today for Venice, where she will spend the winter with her brother, Mr. Birch Bell.

Mrs. Stanton L. Carter is planning to go to San Francisco shortly to be with her son, Lester Carter, this winter. Her home on H street will be occupied by Mr. and Mrs. Fred Dodd.

The West Park Thursday club begins the club year today, celebrating President's Day at the home of the present executive, Mrs. A. H. Staub.

The Zeta Zeta Embroidery club will hold its first session over the sewing bags this afternoon at the home of Mrs. R. T. Mariner on Nevada avenue. A large attendance of members is expected at this post-vacation meeting.

A pretty pre-nuptial compliment to the principals in the Ziske-Hawk nuptials was the dinner given by Dr. and Mrs. G. A. Hare on Thursday evening at their handsome home in North Fresno. Effective table decorations were carried out in tones of yellow, two large French gilt baskets holding yellow rose buds, fluffy bows of yellow tulips further carrying out the color scheme. Most apropos were the little pine tapers which depicted a tiny cupid in a wee chariot, driving a hare. The guest list included the families of the bride and groom. Charles Daniels of Modesto and Harold Hare of San Francisco were the out-of-town guests.

The Pythian Sisters Sewing club held a very pleasant meeting yesterday afternoon with Mrs. E. C. Ninnis at her home on Poplar avenue. Mrs. J. H. Fidell was welcomed as a new member. Among the guests for the afternoon were Messengers J. J. Marley, James Dorn, L. N. Scott, F. H. C. Tousen, C. F. Noland, E. W. Savage. The club will meet two weeks hence with Mrs. Anne Butler at her home, 1318 O street.

The Sunshine club will resume regular meetings each Thursday afternoon at 2 o'clock beginning with today, the members will assemble at the home of Mrs. L. W. Sticklin, 634 J street. Today's meeting will combine business and social interest, and the presence of all members is desired. The club welcomes visitors at any time. The president, Mrs. Methilda Ingraham, who has just returned from Los Angeles and San Diego, will be present and address the ladies.

Mrs. C. B. Kern of Wahioke was hostess yesterday afternoon at a delightful bridge party, given on her own. Among the guests present were: Mrs. E. C. Betchelor, Mrs. George Clegg, Mrs. Ruth P. Mathews, Mrs. Eliot Collier, Mrs. George L. Wood, Mrs. W. R. Evans and sister Mrs. Pay, of Australia; Mrs. A. A. Drigetocko, Mrs. John Rankin, Mrs. E.

MANDAMUS AGAINST CITY CLERK OF SANGER

COULDN'T MAKE ARREST UNDER THE ORDINANCE

Effort Is Made to Have Him Certify Petitions On Liquor License Election

The personal stamp has been reached by the controversies before the city council of Sanger in the movement for the recall of four of the councilmen and in the renewed effort to bring before the board a petition for a special election to bring on a vote on the question of license or no license of the liquor business in the town.

M. A. Root, as a citizen and elector of Sanger, applied to the Superior Court yesterday to mandamus City Clerk H. B. McLaughlin to certify such a petition and alleges as follows among other things:

"The defendant has asserted that he would not in certainty said petition as sufficient until the court so ordered him to do. That this plaintiff has consistently demanded that this defendant certify the aforesaid petition according to the facts, and as the law in this case made and provided envisions to do, but that defendant has obstinately refused so to do and that plaintiff believes that defendant is actuated by party motives of jealousy and enmity against plaintiff and all those who desire the election prayed for in the petition cited."

Root says that he and four others circulated in August petition for an election on the liquor license question signed by 132 people, submitted it on the 13th of the month and after it was kept for ten days it was declared insufficient by the clerk, who refused to make any certification as to the number of signatures, although as claimed the vote at the governor's election in

Sanger Marshal Is Outwitted In Case of Blind Pigging On Sunday

Habens corpus opened the way for Robert Young, a colored bootblacker, to walk out of the county jail a free man yesterday afternoon, after arrest by T. W. Marshall Garrison of Sanger on Sunday, the 12th of this month, acting under an ordinance which does not authorize peace officer to make a criminal arrest.

The ordinance is the one borrowed from Salina under which a \$10 penalty may be recovered in civil action for an infraction of the town liquor ordinance. District Attorney McCormick learned in response to the inquiry of Judge Church that canceling that ordinance does not authorize arrest and yet that the arresting officer acted in good faith the charge of resistance arrest could not be maintained under the proof.

Young was arrested coming out of a "blind pig" with two bottles of beer on a Sunday, and when attempt was made to confiscate the beer as evidence he smashed the bottles. A scuffle followed with the officer drawing a pistol and in the melee Young shoved him away, for which he was arrested for resisting him in the making of an arrest.

November, 1910, was 456 in the then two Sanger precincts with not more than 300 in the territory since incorporated as the town.

On the 2nd of this month a supplemental petition was filed with 132 names additional to the 132 and after another ten days delay Root says both petitions were rejected because not representing 25 per cent of the electors in the territory voting for governor, without, however, stating how many signatures are valid. Petitioner Root states that the clerk marked 21 names as not registered when they are, cast aside 21 other names on the supplemental list for supposed irregularities and anyhow that the signatures submitted exceed by 160 the required 25 per cent. Inasmuch, however, as the clerk will not voluntarily certify the petition, Root asks that the court impose to compel him to do so.

"GETS-IT" for Corns Surely Gets Them!

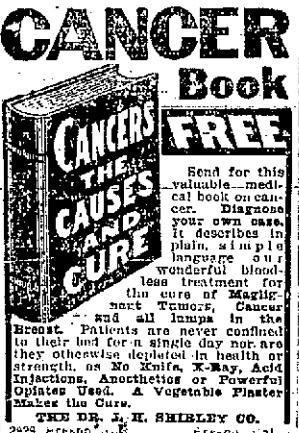

It's a Corn Cure on a New Plan—Gets
the Corn Quick and Sure.
If you've had trouble, have tried
nearly everything to get rid of corns and
have still got them; just try the new,
sure, quick, easy, painless way—the new-

The Lockwood System of Dentistry Without Pain

LECTURE NO. 80.

Bridgework

Only a few years ago a person finding it necessary to have artificial substitutes for lost teeth had no choice but to wear a partial plate. This was the best the dentist could offer. The partial plate was a little better than nothing, but it had many disadvantages. It was uncomfortable, more or less loose in the mouth and left much to be desired. In modern bridgework the patient has an artificial substitute that follows nature closely, and when properly executed by a skilled specialist in this branch of dentistry is as serviceable and quite as comfortable as good natural teeth.

However, you hear some one say that bridgework is not as good as claimed, you can rest assured that it was done by some dentist that had not the skill and experience to do the work properly. Bridgework requires SKILL, EXPERIENCE and the BEST of judgment on the part of the dentist. I have specialized for fifteen years in this branch of dentistry and have acquired an enviable reputation for doing this work as it should be done. My prices are moderate.

NOW Showing the Most Complete Line of Men's Clothing and Furnishing Goods Ever Brought To Central California With Prices Most Moderate and Styles the Very Latest Shown in the Leading "Men's Shops" of America.

IT'S a splendid assortment we are showing, a reflection of the Fall's best, the most tasteful and pleasing variety that you can find. Those authentic styles you'll see in the leading men's shops of the country, whether East or West, are to be found here in the tasteful selections for which we have become so well known.

Men of good taste, those who follow the styles closely and those who dress more conservatively both find what pleases them and meets with the entire approval. That's the reputation of McAfee's.

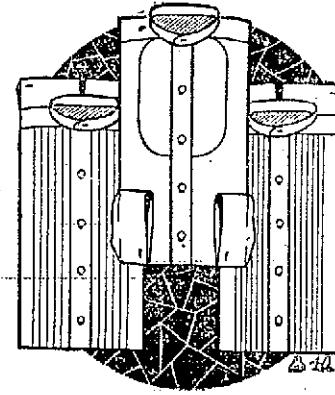

Remarkable Display of Men's Haberdashery

While we have become known for the elegant styles we always display in all kinds of goods, we have made a special reputation in the completeness of our array of haberdashery. Not alone in the quantity and quality but as much in the tastefulness of the display is our superiority shown. It is this characteristic that has brought to this store those who want the best and most exclusive.

And added to the exclusiveness of the styles is the entire assurance of quality that has such a part in making this store the favorite it has become. Quality has backed up the handsome displays in a most creditable manner, till our reputation is founded on assured values. There's more than merely haberdashery — there's QUALITY haberdashery, the kind that you want.

Our Windows Always Reflect The Very Newest Fashions For Men's Wear

When You Pass By Note The Tasty Displays

New Fall Shirts In Handsome Designs All Styles And Sizes

In shirts, too, we have a tremendous variety, including in the exclusive styles that have become so much preferred by men who are careful in the selection of their shirts just as they are in other garments.

In the quality of them we can please the most fastidious. In the matter of patterns and designs, too, we have more to offer than you usually find, and if you are one of those who want something that reflects your own personality and tastes you will find it here. Anyway a look will convince you and we will take great pleasure in showing them to you.

Knox And Stetson Hats In Big Assortments

No man is more tastefully dressed than the good taste in choosing his hat will allow. We have all of the shapes and styles that are most in vogue this Fall and we believe that you will agree with us that the assortment that we are offering is one that will completely satisfy the most unreasonable.

Those little differences that are so essential and which are so important in making the difference between a hat that looks well on you and one that does not, are all here for you to make a choice from.

Hats Priced at \$2 and Up

While our assortment of Knox and Stetson hats, various makes, is complete, the range of prices is from \$1.00 up, and we are able to suit the pocketbook as well as the fancy.

You'll find them from \$2 up as high as you care to go.

If you are undecided what sort of a hat to buy, let us assist you in coming to a conclusion. We'll be glad to be of service.

"Small Fixings"

By small fixings we mean such things as cuff and collar buttons, handkerchiefs, collars, and similar things too numerous to mention. The same completeness of assortment is observed and the same large variety.

Plan To Buy Your Overcoat At "McAfee's"

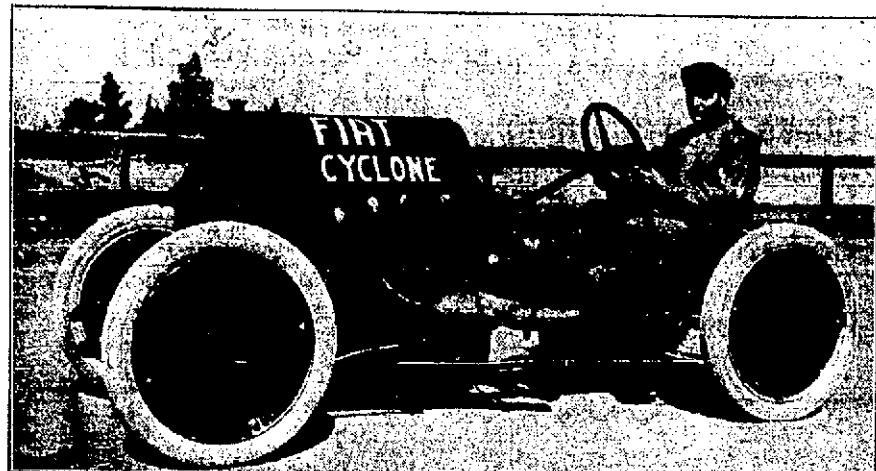

While it is a little early to talk overcoats, yet the nights are getting cold and it is a matter of but a short time till you will be needing one. And when you do buy, we want to call your attention to the fact that we have the very latest and most fashionable. That's the kind you want-of-course.

Famous Auto Drivers For Fair

Cooper Will Oppose Waterman October 4th

TEDDY TETZLAFF WHO IS TO COMPETE AT RACES DURING FRESNO DISTRICT FAIR TO BE HELD IN THIS CITY, SEPTEMBER 30 TO OCTOBER 4TH; INCLUSIVE

Absolutely the greatest aggregation of four Earl Cooper, Harry Tetzlaff, Frank Verbeck, Felix Magone, Tony Jeanette, Eddie Waterman, W. S. Campbell, Frank Good, Grover Weathers, Tom McKelvy, Earl Jackson and F. Tucker.

Entries for the races closed last night at midnight and when that hour

struck the following were enrolled with Secretary Cooper. In addition to them will be any who reside in other cities and whose entry blanks show a reasonable price to that time. It is expected that at least one hundred drivers will appear in the person of Harvey Kennedy of San Francisco, who has been a team-mate of Bob Burman during the past summer.

Although it was generally believed that Tetzlaff and Verbeck would not participate because of their demands of a month ago, at the eleventh hour last night Attorney E. E. Hewlett of Los Angeles, who owns the monster Fiat team communicated with Secretary Cooper and made the entry with the agreement that a reasonable price would be in the racing's merit.

This agreement makes seven starters for the free for all race, five for the medium car race, and six for the light car race. That each of these events will be a contest to the finish is guaranteed by the character of the cars and drivers.

FREE-FOR-ALL. It is around the free-for-all that the chief interest will center and in this event the following cars and drivers will compete:

Car ... Driver.
Stutz ... A. J. Quinn Magone.
National Earl Y. Booth Jeanette.
Stutz ... Niederauer.
Motor Car Co. Cooper,
Packard W. S. Campbell, Campbell,
120 Fiat E. E. Hewlett Tetzlaff.
120 Fiat E. E. Hewlett Verbeck.

MEDIUM CAR RACE. The medium car race will see the first four of the above cars and drivers with the addition of Eddie Waterman in the Fiat, and the small car race entries will consist of:

Car ... Driver.
Overland Corp. Bros. McKelvy.
Buick ... Waterman Bros. McElvane.
Reo ... Waterman Bros. Jackson.
Ford ... F. Tucker Tucker.
Studebaker H. Good Good.
Rogal ... Hugh McPhail Weathers.

Practically every follower of the automobile racing game is familiar with the achievements of each of these men but for the benefit of those who have not had the opportunity to watch these drivers, some idea of the capabilities of these celebrities can be gained from the data given herewith.

RECORDS OF DRIVERS. Earl Cooper, Fresno boy, winner of Golden Peltach at Tacoma on July 5th of this year. Winner of Montmarathon at Tacoma on July 7th. Winner of Santa Monica on August 8th and of both events at Corona on September 9th.

Teddy Tetzlaff of Los Angeles, winner of Santa Monica 1910 and 1912. Winner Golden Peltach and Montmarathon at Tacoma in 1912. Second at Indianapolis, 1912. Holder world's racing record, made at Santa Monica in 1912. Holder of Frank Verbeck of Los Angeles, winner Los Angeles to Sacramento road race July 4th, 1912. Second at Corona September 9th, 1912.

Tony Jeanette of Italy. Won many prominent events during past four years. Racing partner of Bob Burman for past year. Second in heavy car race at Corona on September 9th this year. Raced as one of the most daring drivers in the United States.

Eddie Waterman of Fresno. Winner of light car race at Corona on September 9th. Holder of world's light car road record, made same day. Second in Los Angeles to Sacramento road race on July 4th, 1912, and also holder of many local road records.

W. S. Campbell of Visalia. Winner of Visalia road race on July 4th of this year.

Earl Jackson of Fresno. Winner of second place in light car race at Corona on September 9th. Winner of Buick-Mercury match race on Fresno track on Washington's birthday this year. Also other events.

Frank Good. Second in Imperial Valley road race on Washington's Birthday this year. Defeated only by Oldfield in 120 h.p. Fiat. Prominent

NO RESTRICTIONS SAY DONORS TO SULZER'S FUND

(Continued from page 4)
forth he was the governor of the state of New York and denies each and every other allegation, matter and fact in said fourth article set forth and contained.

"Fifth, in answer to the fifth article of impeachment, he admits that at the time thereto alleged and set forth he was, and now is, the governor of the state of New York; and denies each and every other allegation, matter and fact therein contained and set forth.

"Sixth, in answer to the sixth article of impeachment, the respondent admits that he is now the governor of the state of New York, that he was regularly nominated by the Democratic party therefor and thereafter elected to such office, and alleged and set forth in said sixth article; but denies each and every other allegation, matter and fact set forth in said seventh article set forth and contained.

"Seventh, in answer to the seventh article of impeachment, that at the time therein alleged and set forth he was, and now is, the governor of the state of New York, and denies each and every other allegation, matter and fact set forth in said eighth article set forth and contained.

California Oil Field News

DRILLERS ARE HOME FROM WYOMING FIELD

Failed to Secure Oil After
Drilling 2,000 Feet and
Abandon Project

drilling a wildcat section eighty miles from Casper for the Pittsburgh and Associated Oil Company, returned to Medicine Bow after completing a well on the land located by them in Wyoming. The well was drilled to a depth of 2,000 feet with a standard outfit and at no time a test oil was taken. The information passed through precluded any possible chance of finding the desired oil district. After the well had reached a depth of 2,000 feet it was decided by the officials that the lease should be abandoned, and the men were set to work tearing down the derrick. Afterward they were released from their contract with the company and furnished transportation home. The country in which the well was drilled was a grazing district, where many cattle and sheep were raised and the conditions met were very good and all enjoyed the work very much.

MONTE CRISTO MAKES STRIKE IN FULLERTON

Finding of Oil Has Caused
Other Companies to De-
velop Their Leases

TAFT, Sept. 24.—The strike made by the Monte Cristo Oil Company on the Armstrong Ranch, in the orange groves of the Fullerton field, has caused much excitement among oil operators for several miles around. They are optimistic and of the belief that drilling is worth while in that neighborhood, despite the fact that the oil was not encountered until a depth of 3,600 feet had been reached.

The well had been found absolutely dry after being completed by Huber & Wilson with the aid of the 8-inch engine.

Superintendent William McDuffie of the North American Oil Company was one of the first of the many entrepreneurs to arrive on the ground after the strike. His opinion was he was with the shooting that he telegraphed to Taft for a rotary outfit and two heavy pumps to be shipped at once. These are now on their way to the company's house on the Kicksa farm immediately adjoining the Monte Cristo lease. Indications are that because of this shipment the North American Company will put down another well at once. The No. 1 of the North American on this property, is down 1900 feet but because of hard formation and other trouble was temporarily put on the idle list.

LAKEVIEW IS ACTIVE IN SUNSET OIL FIELD

Well No. 11 Is In the Oil
Sand; Three Are Produc-
ers; New Boiler Plant

MARICOPA, Sept. 24.—Well No. 11 on section 25, 12-24, has just reached the oil at a depth of 2,339 feet. A good well of high gravity oil is expected when the well is put to a test shortly.

Well No. 12, on the same section, is down 1,994 feet with a 15 1/2-1 inch tubular-rotary-dice-bit "in use"; this amount of hole being made in 45 days, when the discs were lost off on account of the pipe which held them becoming unscrewed from the shank of the bit. Every effort to fish out the discs has so far proven unsuccessful. The bit was two feet in a hard shell when the discs came off, which eliminates the idea of sidetracking.

Lumber is on the ground for well No. 14 which is to be drilled with a rotary on the last of the water sands above the oil strata.

Wells No. 1, 8 and 9, on section 25, 12-24, are producing very nicely and a slight increase in the daily production has been recorded during the past month. Well No. 10, which is located on section 33, 32-24, is keeping up its average of 160 barrels of 20.4 gravity oil.

Boiler plant No. 1, consisting of 4 1/2-in. boilers, has just been completed and is located in the center of the 60 acres, on section 25, 12-24. This plant is said to be one of the best boiler plants in the westside oil fields. It consists of construction and equipment. It was erected under the personal supervision of Walter J. Barnhart who has been and is at this time the efficient field superintendent of the company.

On account of the increased development work which is turning up in several of the Southern California oil companies, in which he has invested, it has become necessary for Chas. E. Off to make arrangements for the devolution of more of his time to these interests, and to this end he hopes to be able to leave the West Side oil fields in the very near future. Accompanying him will be C. E. Barnhart, who has been his assistant during the past year and half, and who previous to this time was in the employ of the Union Oil Co. for 2 1/2 years. Mr. Barnhart will continue to be his assistant in the southern field with offices in Los Angeles, where he will have the added duties of looking over the interests of several associated companies.

CHRISTMAS PHOTOGRAPHS
Don't wait until a month or 6 weeks before Xmas and expect class work. Everybody waits. Come now and you will be highly pleased. We have some exclusive styles made only at Beck's Studio, and an artist to make your sitting.

MORAL LAW GIVEN PAROLED PRISONERS

Must Not Smoke, Play Pool
Or Drink for
Three Years

LOS ANGELES, Cal., Sept. 24.—As a penalty for their operations in obtaining false signatures to a referendum petition against a county salary ordinance, A. B. Maple and Earle G. Clarke cannot vote for three years, consume cigarettes, visit pool parlors or drink. Instead they must stay home nights. Maple must give his paychecks to his wife, and Clarke must support his widowed mother. All of these conditions of probation were specified by Judge Jackson of the Superior Court in a judgment on Friday, failing which the two men must go to federal penitentiary for three years.

Maple, well known in labor circles, was indicted several years ago, in connection with an attempt to dynamite the county Hall of Records, but was acquitted. Several months ago he and Clarke were engaged to circulate petitions to force an election on a proposed county salary-bracket ordinance and were indicted for frauds.

Under instructions from the court, Maple and Clarke went to the county registration office and personally requested that their names be stricken from the list of voters.

STATE APPORTIONS MONEY FOR SCHOOLS

Fourth Highest Allotment
Of Funds to County Is
To Fresno

Notification has come from Sacramento of the transfer from the general fund of \$2,659,130 to the state school and \$295,000 to the state high school fund, Fresno coming in No. 1 on school fund. The school appropriation for Fresno county is \$108,511.50 on the basis of 43,339 teachers and for high schools \$11,611.50 on the basis of 1,114 enrolled attendance, exceeded by Santa Clara by \$13.22 with 1,812 pupils.

The total number of teachers in the state is 10,628 and of high schools 216, with daily attendance on June 30 at 42,852. The appropriation is the first for the school year. The test and test for the high school should be about March 1st. The test to the elementary will be given about March 1st and the test about July, 1914.

Attention is called to an interesting comparison of San Francisco and Alameda

TO MAKE LOAN ON CHINATOWN PROPERTY

MAY WITHDRAW OR ADVANCE PRICES ON OLD CROP

**Madison Refuses To Make
Any Statement As
To Old Raisins**

**Muscat Quality Very Good;
Quality of Seedless
Below Average**

T. G. Hart, A. H. McKenna and Mrs. Cora H. McKenna, as the trustees of the estate of W. H. McKenna joined in petition to the Superior Court yesterday for permission to borrow \$12,000 a day for one year and ten years on the securities of lots 47-49 in city block 59, with frontage on Tulare and F streets of the Chinese quarter. Mrs. Adele P. Gratzel owns a half interest in the property on which recently a brick 2-story house was erected with the intention of letting it, and by the destruction of the First Stock, Mrs. Gratzel has given her interest for the \$12,000 indebtedness. The other half of the property is held in trust by the estate but has been released to \$15,000 and the monthly income from \$60 to \$70 justifies the improvement investment.

Alameda counties combined against Los Angeles in the following distribution:

Apportionment: Teachers

San Francisco \$2,399,750 Alameda 222,905

Monterey 89,025

Total 2,659,130 \$ 2,690,625

Los Angeles \$3,401,025.50 2,129,411

Excess of Teacher \$17,617.50 22,730

The disparity is even greater in the comparative high school figures of San Francisco \$17,836.75 3,361

Alameda 23,662.22 4,158

Excess of Teacher \$32,587.98 5,117

That the Associated Raisin Company will either withdraw all or a large part of old raisins or make a big advance in price to discourage the buying of old raisins, within the next two or three weeks, is the opinion now freely expressed by local raisin packers. Some road, a change in old, shortly after the first of October.

The Associated is not making any statement one way or the other and Manager Madison said yesterday that he would neither admit nor deny the report. He did declare, however, that the matter had not been discussed by the directors.

It developed yesterday that the majority of the packers affiliated with the Association would not be at all unwilling to see the Associated withdraw prices for several months, until the bulk of the new crop had been moved and many of them said they would not be at all surprised to see such a move taken.

When the Associated issued its last notice last fall on old raisins, effective September 1, the packers were notified that nothing over 30 cents a pound would be shipped for September shipment only. A few days ago Madison issued the same to include October but has returned to confirm for early delivery. He said already turned down orders for old crop for delivery later than October and sold yesterday that he believed he had sold right in so doing because he did not want the others to make the money and let the Associated hold the raisins. This would be the situation if prices were raised or withdrawn.

The 1913 Muscat crop is proving to be of excellent quality and judging from deliveries that have already been made, the quality will be better than it has been for years. Some grading has been done and it is said that the fruit has been running from 60 to 70 per cent three bunches.

Earlier conditions indicated that there would be an unusually large percentage of three crown raisins and provided for in the price lists. It is reported now, however, that the Associated must take steps to protect its two crown raisins further, and that one of the moves will be to confirm only a certain per cent of two crowns in each car lot. Madison said yesterday he had not given the matter any consideration as yet, as the deliveries in date have not been sufficiently large to enable him to make any calculations.

He did declare, though, that the quality of seedless goods this year will be much above the average, as shown by the deliveries made thus far.

Madison is not yet prepared to make any statements regarding the crop insurance but expects to be able to issue a report, based on trial results, early by growers, for the Association within a day or two. One tray count, covering some 25,000 or 30,000 acres scattered in three or four districts, including Fresno, Fowler, Selma, and Reedley, has already been published, showing the crop to be from 40 to 45 per cent short of last year. These figures were secured for the Associated.

During advanced the price of Thompsons to 6 cents, the Associated has found it necessary to advance the price of Lebec, Chico, and Sultana, in round houses, to 6 cents above the price for the natural goods. The price of Sultana is now 5 cents. Therefore the price for raisins has risen a quarter of a cent over the price for the natural goods. Madison said yesterday that the advance in the price of Thompsons to 6 cents made the cost of re-clearing more than a quarter of a cent and that it was necessary, therefore, to advance the price to 6 cents.

The Associated has also established a price for ungraded raisins, in boxes. For old goods the price is 5 cents a pound, and for new goods the price is 6 cents a pound. There are very few ungraded raisins sold.

FRESNO IS FOURTH RICHEST COUNTY IN THE GOLDEN STATE

With \$92,000,000 Assess-
ment Roll, It Has No
Bonded Debt

With Fresno listed No. 4 in the list of the 58 counties of the state according to the total assessment roll valuation, with only Los Angeles, San Francisco and Alameda exceeding it in the order named, added interest is given to tangible financial data contained in the report of the "County" made yesterday by the auditor to the State Controller. With a \$92,000,000 assessment roll, public property valued at \$1,255,693, bonds and numbers, there is no bonded indebtedness against the county. This is outside of school districts, of course. The data from the report are these and they are worth the filling away for reference purposes:

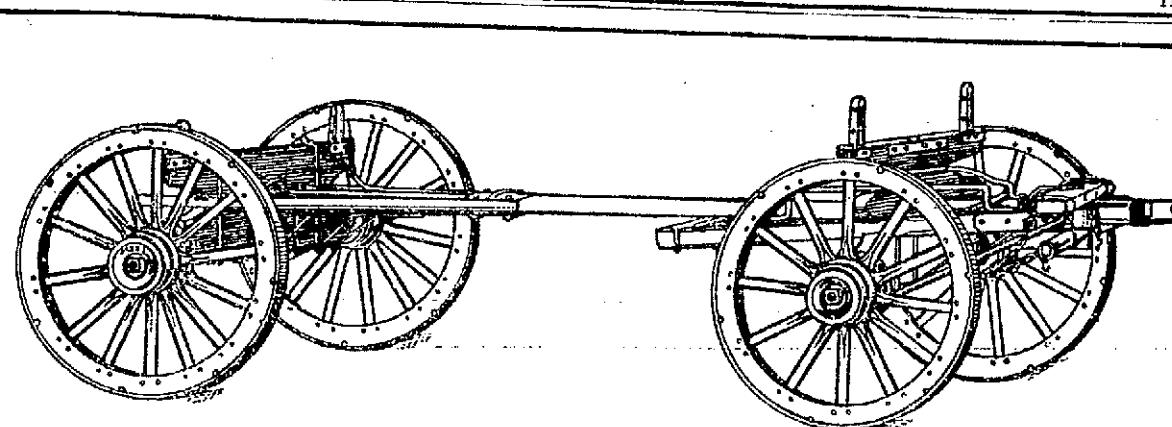

Non Operative Roll
Inside cities \$21,107,381
Outside of cities 56,762,858
Total Operative Roll \$50,869,042
\$ 3,500,548

Total \$84,379,491
Railroads \$ 7,581,325
Assessable value \$82,261,816
Tax rate inside, \$1.14; outside, \$1.54.
No bonded indebtedness.
Value of public buildings:
Courts, jail and grounds \$1,000,000
Hospital and almshouse 200,000
County courthouse 25,000
County farm 50,000

Total \$1,255,693
Area in county 2,236,358

TO ASK FOR ITALIAN
DISPLAY AT FAIR

WASHINGTON, Sept. 24.—Secretary Bryan today designated Mr. Nelson Morris of Chicago a special commissioner to seek the co-operation of the Italian government in the Panama-Pacific exposition.

Studebaker Wagons For 65 Years The Perfection of Wagon Construction

STUDEBAKER Wagons have so many good points that it would be impossible for us to enumerate them all at once, but here are a few of their striking good features:

—**STUDEBAKER** Hubs don't check because they are thoroughly air seasoned. After mortising they are treated with a secret sealing fluid which is heated to a high temperature. This solution penetrates to the very heart of the wood, enormously enhancing its toughness and giving it stubborn weather resisting qualities — **STUDEBAKER HUBS DO NOT CHECK SPOKES**, after having been air seasoned the proper length of time are shaped on machines and then sanded and carefully inspected. Before spokes are driven, the hub mortises are coated with hot glue. This insures a glued surface between the spoke tenon and the hub, and as **STUDEBAKER** hubs are larger in diameter, the spokes have long tenons, giving a large glued surface.

—**STUDEBAKER** spokes do not become loose from ordinary wear. Felloes are then wedged on the spoke tenons, then with automatic machine the felloes are faced and turned true to the hub, excepting that at the joints is cut a hump. When the tire is shrunk on the pressure through the hump gives a truss effect, and a perfect circle, with lift and push against the tire that overcomes flat joints and means round wheels and EASY RUNNING WAGONS. It's a very common thing with us to have customers come in and say that their **STUDEBAKER WAGONS** have been doing service for ten years and more and the tires—in all that time—have never been or needed seating.

We have a big assortment of wagon gears—at all prices—and would be pleased to have you come right in and look them over—Come now or at any other time—You will be given courteous and intelligent attention.

RUSHING DRAWING OF FORT PECK LANDS

SUES MORAJESKI FOR DIVORCE

TUCSON, Ariz., Sept. 24.—Mrs. Alice Morajeski, wife of Victor Morajeski, who claims to be the son of a Russian nobleman, filed suit today in the Superior court here, charging her husband with the felony of non-support. The suit is the aftermath of domestic troubles that had their climax recently when the two made counter charges of assault in court. Mrs. Morajeski declared her husband had pushed her face down in the mud and the "count" replied that he was merely defending himself from her ferocious attack with a butcher knife.

Mrs. Morajeski formerly was the wife of Colonel L. P. Crane, well known in Los Angeles and San Diego some years ago.

UNION PACIFIC RAILROAD MEN VISIT CHAMBER OF COMMERCE

Vice-President Monroe Says Canal Will Aid Fruit Men;
Colonist Predictions; Land Show and
Tarpey Reception Planned

J. A. Monroe, vice-president of the Union Pacific railroad, together with several other officials of the same system, met with the directors at the Fresno County Chamber of Commerce last night. The railroad men expressed themselves as very well pleased with the valley as a whole, and predicted that there would be a large number of colonists who would visit this section during the next fifteen days while the special injunctions were in effect from eastern consolidation cities to any point in this state.

The railroad officials stated that the opening of the Panama canal would undoubtedly be a good thing for the people of the West and especially so those of the San Joaquin valley as they believed that a lower system of rates for fruit shipments by boat

would probably be put in effect at that time for transportation east. They said, however, that they didn't know whether they could meet the competing rates of the steamship or not. If they stayed in every heavy cut rates, as many of them in order to get a cargo, but the eastern return trip would probably make such a big rate that the railroad would have no chance to meet it. They were also of the opinion that the rates for shipments of various sorts would remain the same for hardly a week in time as the ship would enter what is commonly called a "hot throat" business in order to get cargoes on their return trips.

It was also stated that, if regulation of any kind was attempted that would interfere with the rates of either the steamships or the railroads, the boats

PHONE DRUG CO.
MAIN 666 1032 J St. Fresno Cal.

Even If Other Stores Did Sell Drugs As Good For Prices As Low

—you would still remain a Phone customer on account of the Phone service.

In addition to offering drugs and medicines of highest quality, for prices seldom equaled—even in the largest cities—we extend the extra advantage of a prompt delivery and store service that helps wonderfully in making drug buying satisfactory.

Just step to the phone and you're in touch with Fresno's most dependable drug store, where satisfaction is always to be secured for the lowest price.

Medicine That Brings You Back To Quickly.

When the doctor writes you out a prescription, you expect the medicine mailed—for-to-make you well and strong again—and it undoubtedly will fit fresh drugs of full power—are used, but—

Health and Beauty Answers

BY MRS. MARY MARTYN.

R. M.: Though your teeth worries you, do not take chances with violent surgery and exaggerated dieting. You had better use this simple but effective flesh reducer, which you can make at home, and about which I have written to praise its mild and effective qualities. Dissolve in 1½ pints boiling water. Allow to cool, strain and take a tablespoonful after each meal. Continue the course until you reach normal weight.

Annie L.: Powdered deodorant is the most effective thing which I know for removing stubborn hairy growths. Get an original package, and mix enough powder with water to cover the hairs not wanted. Apply and leave for 10 minutes to remove, wash the skin and the hair. This is quick, harmless method and seldom needs repeating. Be sure it is salve.

J. A. H.: No, I would hardly criticize you for your lack of nutrition. It is due to impure blood and sluggish metabolism, the natural result of the summer's heat. Your appetite and energy can be regained by taking, before each meal, a tablet spoonful of mixture composed of one ounce of hard soap, half an ounce of alcohol, to which is added half a cup of sugar and hot water to make a full quart. It will cleanse the blood and assist the liver to do its work and will affect your complexion by leading to a new glow of health to your cheeks. This will make you feel like a new person and look like a new person.

Dolla: I use a lotion instead of the favorite white home made skin cream, because it is expensive and a protection against sun and wind. It is cheap and in every way equal to the expensive white face powders, yet it keeps the skin healthy and strengthens it. To this add 2 teaspoonfuls of glycerine and your lotion is complete. Apply freely after washing and thoroughly drying the face. This results in a smooth, clear complexion, while acting as a tonic in rounding out hollows.

Constance: You are very foolish to take chances by using belladonna. In my eyes, its effect is only temporary; it only麻痹 (anesthetizes) the skin and strengthens it with the result of temporary relief. To this add 2 teaspoonfuls of glycerine and your lotion is complete. Apply freely after washing and thoroughly drying the face. This results in a smooth, clear complexion, while acting as a tonic in rounding out hollows.

Miss K.: Your hair tonic is worthless. Experience prompts me to recommend nothing but hair tonic to you, because it has done wonders for myself and a host

of friends. Just pour 1 ounce quinine in half a pint placebo, then add ½ pint water and the tonic is ready. This quinine is a natural tonic and stimulant which stops the itching and burning almost instantly, and makes the head so healthy it overcomes dandruff and controls excess oiliness. When this is done add an abundance of fluffy brilliant, even-colored hair is certain to follow.

W. E. G.: My suggestion is that if they did not like it they could move to other parts of the world to do business, whereas the railroad had to take their medicine as their investment were of such nature that they had to remain where they were.

Monroe said that he did not know whether the colonist movement this year would be larger than last year or not but that he was of the opinion that it would be about the same.

He gave as his reasons for the belief that the period has been shortened fifteen days and that the rates were a little higher than heretofore.

It was also stated that, as crops had not been very large in the Midwest, many people who had planned to come would not do so this year.

In speaking of the places where he believed that most of these people who came as colonists would locate, Monroe said that he believed the San Joaquin and Sacramento valleys would get the majority of them, and that the remainder of them would be mainly winter tourists who are taking advantage of the low rates to come here.

These people, he thinks, will go to the southern part of the state.

Monroe, who is on his way to San Francisco to confer with the officials of the Southern Pacific, is accompanied by L. W. White, director of traffic and general passenger traffic manager, all with headquarters in San Fran.

It was also stated that, if regulation of any kind was attempted that would interfere with the rates of either the steamships or the railroads, the boats

Supernatural Results Are Obtained From Wildest of Schemes in "Ready Money"

"Ready Money" that most alluring of titles, attracted a large house at the Burton last night, that for more than two hours was kept in the most alert interest in the development of this get rich quick drama, formed on some of the ventures of the day, and like the Wallingford series, got supernatural results from the wildest schemes. The story revolves about the hero, Steve Ober, and his financial extenuations, that range from ruin to affluence, and his daring exploitation of his sky-rocket gold mine.

Steve's counterfeit money plays a prominent part in the general complications, and its author lives, many lies, that are aphorisms. "If you've got money, you don't have to spend it all you have to do is show it." "It takes money to get money and more than half the game is in the money itself having glimpse of the money makes the draught of doubt, and it won't be lost confidence in the money regarding money idea, that saved the situation from a near panic on several occasions.

To Robert Ober, as Steve, is due much of the evening's entertainment and his personality dominates the character, certain little mannerisms lending us much to the lines, as the very sense of the lines themselves.

Charles Mills, in the role of the counterfeiter, who induces the development of the plot also lent much interest to the production with his clever character work.

Or the "pals", Maurice Barrett, gives the character of Sidney Rosenthal with verve. His candle of faith in the mining scheme (after having glimpsed the money) suffers the fewest fluctuations in the draught of doubt, and it won't be lost confidence in the money regarding money idea, that saved the situation from a near panic on several occasions.

To Adelphi Hastings is entrusted the only matron's role, and her love for her prospective son-in-law, amply fluctuates with the reputation of his financial successes. Nina Blake as the sweet heart of the young speculator, lends her pleasing personality to the comic as does Mary Carlisle, in the role of her younger sister with suffragette ideas.

The play opens with a New Year's celebration at which Steve and his steaming broods with real money have a conference regarding the financial condition of the former, and his one chance, the Skrocket mine bought against the advice of his mother-in-law, to be. The disposal of \$49,000 worth of stock is another of the amusing incidents, and the ultimate

bromide of the chamber of commerce that they would furnish the champagne necessary for such an affair and James Madison stated that he was with them in any plan carried out by the chamber of commerce in honor of Tarpey.

EXPRESS REGRETS.

Communications were received from the commerce chambers at Linton and Fowler expressing their regrets that they were unable to be in attendance at the first meeting of the county chamber in this city, when invitations were extended to them to come and talk over the advertising scheme planned by the Fresno County Chamber of Commerce in Sunol for the coming year.

These letters were received with great satisfaction by the directors, as they showed them that at least some of the county organizations, besides Davis, which sent a representative, were with the chamber of commerce in all the work that they undertook.

The Plover letter was signed by Secretary W. K. Kendrick and was dictated at the request of President Wrenberg, who is ill. The Linton communication was signed by Secretary N. C. Blanchard.

A proposition for the building of a proposed automobile tire company that is being promoted by Mr. Baldwin was turned over to the factory committee of the chamber.

Baldwin has been working among the business men of this city for the last three weeks to promote a \$250,000 automobile tire company with a factory here.

According to his figures, a factory that would make thirty tires in a day of eight hours could be started here, providing a building would not have to be constructed, at a cost of about \$100,000.

The company that he proposes organizing, will issue stock which is to be bought up by automobile owners. Baldwin says that stockholders in such a company would be able to get their tires at factory rates and could thereby save considerable money.

TARPEY RECEPTION.

Preliminary arrangements for the reception to be rendered in honor of Mr. Tarpey for the work he did for the grape growers of California were also made by the directors last night.

It is proposed to hold a reception to be followed by a banquet, so that all those who are interested in the wine-making or wine grape and raisin producing industries may be invited to honor Tarpey. Plans are now under way for such an arrangement that will accommodate about 200 people. The banquet will be at six o'clock per plate.

George P. Beverage and A. Matto

News From Central California

CHrysanthemum Show PLANNED FOR EXETER

Presbyterian Ladies Make
Preparations for Event
In November; Notes

EXETER, Sept. 24.—The ladies of the Presbyterian Aid society are making elaborate plans for a chrysanthemum show, to be given in November, probably the 13th, 14th and 15th. This was decided, the committees appointed and active work commenced early in the year before the vacation season, and now that that season is over, and the members of the organization at home and ready for the fray, the work is being pushed to the foreword. The business men, the other churches, and the entire town are taking an interest in the fair, and all hope to make it a glorious success in every way. The official program is not yet compiled, but a hint has been given as to its contents, and it has a most interesting sound. The first day there will be a band concert in the afternoon, crowning of the king and queen, and a donkey parade at night. On the second evening "Queen Esther" will be given under the direction of Mrs. George D. B. Stewart. This will be a strong drawing card as it is a beautiful musical drama staging about sixty people. In the third afternoon will be held sports of some kind and at night a minstrel show by the business men of town. There will be booths of all descriptions, chicken pie suppers, auto parades, and in fact, the ladies are bending every energy to make this a real live fiesta, both for themselves and the town. Prizes will be given for the handsomest chrysanthemums and a large sum of money are being raised for the show.

COLUSANS INSPECT STANISLAUS STOCK

G. Zumwalt Plans to Equip Dairy
In North With Thoroughbred Holsteins From Modesto Dairies

MODESTO, Sept. 24.—J. G. Zumwalt, Democratic candidate for Congressman from the First Congressional district in the past two elections, and J. A. Marti, both of Colusa, were in Modesto this afternoon for the purpose of inspecting the dairy herds in this vicinity with a view to purchasing a herd of Holsteins. Mr. Zumwalt is planning to operate a first-class dairy and the fame of Stanislaus as a dairy center brought him here with his tenant, Mr. Marti, to make the purchase of cows with which to stock his ranch.

Mr. C. L. Burnett has been confined in the house with a sprained ankle for several weeks.

Miss Mary Francis Meyers left Wednesday morning for Los Angeles, where she will spend a month visiting friends.

Mr. and Mrs. C. R. McEvans have returned from their honeymoon, arriving here Monday evening, September 23, and are spending at their cozy home on C street, where they will be home after the first of October.

The Missionary Society of the Presbyterian church held a missionary meeting at the church parlors Friday afternoon, September 19. This charming event was in the nature of a progressive luncheon, there being four tables, each presided over by a hostess who entertained with short talks on different missionary topics, while the ladies partook of the course at her table. A very interesting musical and literary program preceded the luncheon. About forty ladies were present.

Dr. and Mrs. I. Savill have returned from a few weeks' visit in Los Angeles.

PORTERVILLE BAND SELECTS OFFICERS

PORTERVILLE, Sept. 24.—The Porterville band last night elected officers for the ensuing year, as follows: Gus Leslie, president; A. Quinn, vice-president; Karl Lord, secretary-treasurer; R. P. Gillette, manager. A. J. Dunton, a Main street business man, was offered and accepted the position of director. Regular practice work will be started soon and one of the first contracts will probably be that for furnishing the music at the Fall Fiesta.

TULARE LIVE STOCK DIE FROM SUPPOSED POISON IN PASTURE

SPRINGVILLE, Sept. 24.—Cattlemen of the hills have asked County Livestock Inspectors to investigate the cause of strange deaths among the range cattle this summer, which as yet no satisfactory explanation has been found. Animals are found dead in numbers in the foothill pastures and in some cases the losses have been serious. Melchiorino Bros., who are pioneer stockmen of the hills, reported the loss of eighteen head of steers from one herd. It is the general belief here that the deaths are caused from some sort of unidentified poison.

BIG PRICE IS PAID FOR MODESTO FARM

Improved 200 Acre Tract Is Purchased
By Berkeley Parties At Consideration of \$200 Per Acre

MODESTO, Sept. 24.—One of the most important real estate deals consummated here in the past month was completed this afternoon when the ranch of J. R. Brumfield, president of the Modesto Bank, was sold to B. R. and W. L. Rowan of Berkeley. The consideration was approximately \$40,000. The ranch is located two and one-half miles east of Modesto and consists of 200 acres, of which about half is planted to alfalfa. B. R. Rowan is connected with the California Inv Co. of Berkeley, while his brother owns extensive land interests in the Sacramento valley.

THE FRESNO MORNING REPUBLICAN

JUDGE AND MRS. M. TURNER WALLACE OBSERVE GOLDEN WEDDING AT DINUBA

Judge M. Turner Wallace

Mrs. Martha Wallace

DINUBA, Sept. 24.—Fifty years ago today Mathring Turner Wallace and Miss Martha Herington were married in Davis county, Iowa. Today the aged couple are celebrating the anniversary of that event surrounded by their children, grandchildren and great-grandchildren in Dinuba. The golden event has made a notable feature by the members of the family who have gathered from all parts of the state to join them in the festivities of the day. A sister of Mr. Wallace, Mrs. Nancy Osborne of Stockton is present as a member of that first wedding party in the old Eastern home five years ago.

Mr. and Mrs. Wallace crossed the plains with a mule team, accompanied by Mr. and Mrs. J. N. Patterson of near this city, in 1864, and settled first in Lassen county. They were 156 days enroute, and after remaining in Honey Lake Valley for a few months moved to Iowa, where they were the first to settle near the new village the city of Stockton now stands. From there they went to Sonoma county, and for eight years resided on what is now old Windsor, and then again returned to San Joaquin county and settled at Lodi, where they resided for seventeen years. They came here twelve years ago and the judge has been promptly identified with this community as just the peace and city recorder ever since.

The golden wedding today was marked by a famous dinner at 12

o'clock, the two long tables being filled with the large family. Following the feasting a number of speeches were made, and a golden offering was taken amounting to nearly \$200, and this was presented to the aged couple in a gold and loving cup. There was also presented to them a book bound in gold cloth and containing a gold fringe and tassels in which were placed a complete family history and record, the lettering all done in gold. Many other beautiful and costly presents were given them, including a complete set of silverware from the two little children of their son, Benjamin C. Wallace, cornerer of San Joaquin county.

This afternoon and tonight the home of Mr. and Mrs. Wallace has been crowded with friends of the family, who have come to greet them and extend best-wishes and congratulations. The reception was continued far into the night, and a day of unmingled joy has marked the passing of the fifty-fifth milestone post in their married life.

The members of the family present at the wedding included seven children, sixteen grandchildren and two great-grandchildren. The children are Laura Eunice—of Los Angeles; Alfred Watson Wallace of Dinuba; Lucy Elliott Carpenter of Dinuba; Myrtle Ivy Patterson of Dinuba; Benjamin Carpenter Wallace of Stockton; Earl Chester Wallace of Dinuba; and Lulu Pearl Wallace of Dinuba.

REEDLEY STUDENTS ORGANIZE CLASSES

REEDLEY, Sept. 24.—The students of the Reedley union high school have effected their class organization, and the officers are as follows: Seniors, Christine Hollingsworth, president; Grant Cunningham, vice-president; William Pratt, secretary; Margaret Beyens, treasurer; Reba Klein, class reporter; Juniors, Paul Cooper, president; Alvin Aurell, vice-president; Charles Gowinlock, secretary; Agnes Carquist, treasurer; Bernard Bergstrom, class reporter; George Newell, sergeant-at-arms; Sophomores, Newell, Hosmer, president; J. F. Osborne, vice-president; Dorothy McCurt, secretary; Harry Shaffer, treasurer; Josephine Simmons, class reporter; Josephine Gwin, sergeant-at-arms; Freshmen, Marj Patterson, president; Lynn King, vice-president; Alice Swiger, secretary; Wilbur Stahl, treasurer.

Miss May Twitchell, of Santa Barbara, has been chosen to teach the commercial department. This completes the faculty, which will include ten teachers this year, an addition of one over last year.

TO INVITE HUMANE OFFICERS' MEETING

PORTERVILLE, Sept. 24.—Thomas N. Coul, secretary of the Tulare County Humane Society, left last evening for Chico, where he will attend the state convention of officials of the societies and where he will endeavor to secure the next convention for Porterville. Coul takes with him to the north formal invitations from the Chamber of Commerce and other properly bodies.

MARICOPA NOTES

MARICOPA, Sept. 24.—Mrs. Albert Anderson left Monday for a few months' visit with relatives in Tacoma, Washington.

Mr. and Mrs. E. L. Tiffany returned Monday from a week's camping trip in the Cuyama valley. Most of the time was spent hunting and fishing. Both enjoyed the trip.

Miss Jessie Masterson returned Monday from a week's visit with friends in Los Angeles.

B. V. Carruthers of Taft, spent Tuesday in Maricopa on business.

Attorney Lester R. Goddard returned Monday from Sacramento and San Francisco, where he has been attending to legal business for the past week.

Virgil Payne, an employee of the Lakeview Oil Company, had his left hand badly crushed yesterday while at work in a ditch on the company's lease, on section 20, 12-28. He was

working with a pair of sledge hammers and caught his hand in between the tongs and casing. All of the fingers were badly crushed and broken and it was found necessary to amputate two of the fingers.

Contractor A. P. Murphy, of the G. B. Cline Company, moved the dwelling formerly owned by James Mathews, city trustee, from a lot in the rear of the Lakeview Hotel to a lot on California street next to Judge T. W. Brown's office. The building is now being remodeled for an office for the West Side Water Company and will be occupied sometime this week.

After a summer vacation the regular

meeting of the Royal Order of Moose will be taken up on October 2, when a class of three candidates will be initiated into the order. During the warm weather the regular weekly meetings were discontinued and a meeting was held but once a month for the transaction of business that was necessary. The meeting scheduled for Oct. 2 will be made a feature and will be followed by a banquet. Special notices are being sent out to all of the members of the order in this vicinity and a large crowd is expected to attend. A program is being arranged for the amusement of those present and the greater part of the evening will be taken up by the social entertainment.

LEMOORE STUDENTS SELECT OFFICIALS

LEMOORE, Sept. 24.—The student body of the Lemoore union high school recently convened and elected officers for the coming term, as follows: President, Lawrence Byron; vice-president, Steve Lelstra; secretary, Ray Wier; treasurer, Gladys Wier; sergeant-at-arms, Ernest Hall. Another meeting is called for Thursday, when the "Nuntin'" staff will be chosen.

BICYCLE THIEF IS CAUGHT RIDING IT

MERCED, Sept. 24.—By following the tracks of a bicycle which was stolen from the porch of R. Van den Heuvel early yesterday morning, Deputy Sheriff Tom Mack had evening succeeded in overtaking the alleged thief at Hickman, Stanislaus county. The man was riding the stolen wheel. He gave the name of Ed Marks.

FINDS STOLEN TIME PIECE IN STOCKTON

MERCED, Sept. 24.—Sheriff S. C. Cornell, after transacting official business in Stockton yesterday, visited the pawn shops of that city and in one of them found a watch which was stolen from the room of J. E. Kelly in Merced on September 8. Cornell had the Stockton police recover the watch and today he restored it to Kelly.

Births, Deaths and Marriages in the San Joaquin Valley

LESTER—In Exeter, Sept. 21, 1913, to the wife of D. V. Lester, a son. HANKINS—In Mariposa, Sept. 22, 1913, to the wife of Fred A. Hankins, a son.

MARRIED

SNYDER-WARFORD—In Dinuba, Sept. 22, 1913, John Snyder and Katie Warford, both of Dinuba.

ENGAGEMENTS.

JACOBSEN-GUERIN—The engagement of Dr. H. N. Jacobson of Turlock to Miss Grace E. Guerin of Santa Rosa, has been announced. The wedding will take place within the coming month at the home of the bride's parents, Mr. and Mrs. George F. Guerin, in Santa Rosa. The bride-to-be is a member of one of Sonoma county's most prominent pioneer families, the town of Guerneville having been founded by her father.

BAKERSFIELD BREVITIES

BAKERSFIELD, Sept. 24.—The City

BOARD OF EDUCATION HAS LET A CONTRACT TO THE AMERICAN HEATING COMPANY TO INSTALL A HEATING PLANT IN THE H. F. WILLIAMS SCHOOL, THE PRICE BEING \$5956. F. WILLIAMS, TRAUTWELL & SHIELDS, WERE AWARDED THE \$35,000 CONTRACT FOR THE NEW FRANKLIN SCHOOL. THE BOARD OF EDUCATION HAS ORDERED THE BOARD OF EDUCATION TO PUT THE SCHOOL TOILET IN SANITARY CONDITION, OR FACE THE CHARGE OF A FINE AND JAIL SENTENCE IF THIS IS NOT DONE WITHIN 30 DAYS. THE CITY WATER SUPPLY CAME IN FOR A SEVERE CRITIQUE FROM THE EDUCATION BOARD, WHO SAY THE TOILETS ARE UNSANITARY BECAUSE OF LACK OF WATER.

George Guy said the pressure is so low in the business section he cannot get water on the second floor of his building. H. A. Blodgett said: "The whole town burn up because when the fire first started they could not get sufficient water from the hydrant to put it out when it was small. The stream would not squirt as high as the ceiling." He referred to the fire of 1859.

The information charging Cleveland A. Wingard with stealing \$1500 from the Wells-Fargo express company was dismissed yesterday in Judge Powers' court. Wingard has been tried twice, and each time the jury has disagreed.

COURT WAS BROKEN YESTERDAY.

For the Kern branch of the Beale Memorial Library, it will stand in the center of the lot, which is 150 feet on Baker street, and 135 on Oregon street. The dirt secured in excavating the basement will be used to level the ground, which has a fall of about two feet from the north to the south.

L. C. McLain leaves this week to enter the University of Chicago, where he plans to study medicine.

The colored citizens will hold a golden jubilee celebration here tonight in memory of President Lincoln. Invitations have been issued to the members of the G. A. R. and women of the Relief Corps, the Mayor, City trustees, board of supervisors and others. Judges J. A. Allen and H. A. Powers of the Superior Court will attend, and a speech will be delivered by Assemblyman W. E. Simpson.

PORTERVILLE WILL BOOST CITRUS FAIR

PORTERVILLE, Sept. 24.—At a special meeting of the Chamber of Commerce directors held last evening it was tentatively decided to maintain an exhibit at the proposed citrus fair to be held in Visalia, provided sufficient funds for the purpose can be raised over the appropriations of the chamber already made for the year.

This decision is conditioned, however, upon the willingness of the Visalia officials to call the exhibit "Tulare County Citrus Fair" rather than the Visalia fair.

For discussion of the matter with other towns a committee was formed including Guy Knapp, Leslie McArdle and J. F. Boller. They will hold the proposed conference as soon as possible and will report to the chamber their findings.

FIRE IN VISALIA THREATENS BLOCK

VISALIA, Sept. 24.—A fire which threatened an entire block totally destroyed the dry cleaning works of the Alcalia Steam Laundry here this afternoon. That further damage was not done was due partially to Charles S. Forney, president of the Central California Gas company, who led the fire-fighters and personally rolled several 50-gallon steel drums of gasoline which lay in the fire zone out of the danger point.

The damage to the dry cleaning works is estimated at \$4,500, partially covered by insurance. Two other fire alarms were sent in during the day, but in both instances the fire was put out before the arrival of the fire department.

PROMINENT TULARE PHYSICIAN IS DEAD

VISALIA, Sept. 24.—Dr. L. D. Hyde, one of the most widely known physicians in Tulare county, and an armchair motorist who has piloted winners in several races here, died late last night at the German Hospital in San Francisco. Hyde was thirty-two years of age and a native of Visalia. Death was due to spinal meningitis.

IS ACQUITTED OF ASSAULT

PORTERVILLE, Sept. 24.—In Judge Hall's court this morning W. E. Vinson was discharged by a jury on a charge of assault and battery preferred by Dick Wilbur, a theatrical man. The jury recommended that Wilbur pay the costs. The two collided with their autos on the road a few evenings ago and an alteration ensued, which was continued the next day when Vinson called Wilbur out of the theater and assaulted him.

ASK OILING OF HIGHWAY

MERCED, Sept. 24.—Residents along the road from Delano to the state highway today petitioned the supervisors to repair and oil their road. They set forth in their petition that during the construction of the Turlock section of the highway, all traffic from the main road was diverted over their side road, with the result that the road was badly cut up. It is in such condition, they say, that they cannot haul heavy loads over it.

LUSTLESS BASEBALL MARKS OPENER OF WEEK

Driscol and Lewis Pitch Wild Ball, Walking Thirteen Men

Locals Get Away to Four Run Lead In First Inning; Sawyer Hits Homer

Night and one-half lustless innings of baseball gave the Fresno Packers a 5 to 4 victory over the Stockton Producers yesterday afternoon at Recreation Park.

It took only one hour and forty minutes to play the contest, but despite this, there was something lacking. That snap and dash, which go with pennant winning ball, was conspicuous in its absence. There was no incentive. Stockton has but to place the order for the pennant, and Fresno is so far behind that there is little use of winning.

Father fans were elsewhere than in grandstand and bleachers, and brilliant plays—there were a few of them—were cheered little or not at all. There were but few present. A few of the old standbys were in their customary seats, but the majority of them were elsewhere. In general, the scene suggested a Quaker camp-meeting more than a ball game.

PACKERS GET AWAY EARLY.

What little enthusiasm manifested itself in the opening inning, when the locals drew away to a four-run lead.

Sawyer began his final week-of-play in the California League, before joining the Angels, by nailing a nice hit over the right field fence, with two men on the paths.

Tex Lewis, pitching for the Stockton, was wild, very wild. He demonstrated his eccentricity shortly after Phillip Knoll had declared the afternoon's amusement in order.

Pierce and Wheeler took advantage of Lewis' day off and both drew walks. Meusel touched a bat to the box and went out. Lewis to Thomas, advancing "Yankee" and the captain. Fahey hit a short knock to McClellan, who fielded cleanly and held the ball white

Pierce scored and Fahey reached first. With Wheeler on third and Fahey on first, Sawyer drove a nice piece of Tex's delivery out of the lot for the first and only home run of the game. Berkel brought about the fifth tally in the fourth inning. Bender walked. Berkel was hit in the groin. Stevens fanned and Driscoll forced Bender at third. Pierce singled to left and Berkel scored the final run.

PRODUCTIONISTS FIGURE.

The third period saw the visitors with one less than the Packers. Boeckel went to first on Sawyer's error. Simpson and Lewis went out. McClellan drew a walk from Driscoll, who was exceedingly wild during the opening. Schmidt hit wild at the centerfield fence. Butler planted a blow in right center sufficiently hard to score both Boeckel and McClellan. Wilhoit singled to right. Pierce threw to Stevens in an attempt to stop Butler, trying to score from second. Butler tried to return to third, but a fast hit of work to the part of Stevens eliminated Johnny.

The only other run of the afternoon for the visitors was made in the seventh. Boeckel hit to right and beat it out. It was fielded and thrown over Wheeler's head. Boeckel going to second on a fast play from Stevens to Sawyer, stopped the Dutchman at third, however.

Simpson singled to right. Lewis went out. Wheeler to Driscoll. McClellan singled to center, thereby scoring Simpson with the final run. Score:

CHESTNUT COLT WINS FUTURITY

Don Chenault Shows Heels In Grand Circuit Contests

COLUMBUS, Ohio, Sept. 24.—Don Chenault, owned in Charleston, W. Va., today at the grand circuit track, the sectional trotting and took the Horse Review Futurity for 3 year old trotters from a large field of which Elvian was the favorite. The time for the first heat was 2:66 1-4, taming Don Chenault the second fastest 3 year old trotter in history.

Michigan Queen, in the 2:69 page, three heats of which were run under 2:66, won the race three heats of which were run today. In the first she lowered her record to 2:65 1-4.

Margot He's was the favorite in the 2:67 page which won five heats. The time of each heat was under 2:66 and two were in 2:66 1-4. Nellie Temple won the first heat, but ran again against Dr. H. P. Marion He's. The next two hot trotters badly when challenged in the fourth mile and One Color won from Nellie Temple. The third mile was Margot He's all the way.

DUCKS WIN FROM SEALS IN TENTH

PORTLAND, Ore., Sept. 24.—Standridge, the Seal recruit, pitched a beautiful game up to the eighth inning today, while Koenig for Portland was wild. The score at this juncture was 2 to 0 in the Seal's favor. Then Standridge went to pieces and the free safe hits in a row enabled the Beavers to tie the score.

After that the teams played each other to a standstill until the tenth, when a three-bagger by Kores, followed by a hit by Hodges, brought in the winning run for Portland.

The feature of the day was the base stealing of Jimmy Johnston, who pilfered three bases, bringing his total for the season to 101, score:

SAN FRANCISCO

ABER-BILPOAL, Sept. 24.—Portland, Philadelphia split even in a double header here this afternoon. Portland won the first game, 1 to 0, and Philadelphia captured the second 11 to 3. The opening game was won by the Beavers through the excellent pitching of Standridge, who held his opponents to three hits, but did not permit a single to reach third base, while Koenig and Smith made some sensational plays. Standridge was passed on in the fifth inning, and the lead-off man in the various scoring runs came home on a sacrifice of Jimmie Johnston.

Heavy hitting featured the second game, the home club making a longer run, six doubles, and seven singles. The first four batters to face Standridge made a single and three doubles. Davis had the lead off and he also went to the rubber and he also was hit hard, James pitching after the fourth inning. Mayer was knocked off the rubber in the sixth inning, Canitz taking his place and doing good work. Scores:

	1	2	3	4	5	6	7	8	9	10

SUMMARY

Struck out: By Standridge 4; Krause 9. Base hits: McArchie, 2. Three base hit: Kores. Double plays: Linday to Kores; Kores to Lindsay; Fisher to Kores; Krause to Davis. Sacrifice hits: Kores, Schmidt, Krause. Mound: Standridge; Johnson A, Schmid, 1. Hit by pitcher: Kores. Time, 2 hours. Umpires: Guthrie and Bush.

PITTSBURG, 3; CHICAGO, 2

PITTSBURGH, Sept. 24.—Chicago errors and two wild pitches by Cheney in the first inning gave Pittsburgh the opening game of the series 3 to 2. Carey, leading off in the first inning, was safe on Evans' bunt. A wild pitch enabled Carey to take second. Dolan hit Cheney, whose throw failed to get Carey at third. With Wagner up Cheney then uncorked his second wild pitch, Carey scoring and Dolan reaching third. Wagner walked and Dolan scored on Vixen's sacrifice fly. Another bunt by Evans on the long grounder in the third, followed by Wagner's double out hit the left field fence gave the Pirates their third run.

Chicago scored a run in the fourth when Evans singled, Williams walked and Vixen in his haste to complete a double play on a Zimmerman, three-walk. Leach's short fly went for a double in the sixth and he scored when Williams singled. Score:

	1	2	3	4	5	6	7	8	9	10
Chicago	1	0	0	0	0	0	0	0	0	1
Pittsburgh	0	0	0	0	0	0	0	0	0	2

SUMMARY

Struck out: By Standridge 4; Krause 9. Double plays: Gardner to Cook (2). Passed ball: Elliott. Stolen bases: Hoag, 2; Zacher, Cook, Mitze. Wild pitch: Ables. Earned runs: Oakland, 2. Left on bases: Vixen, 5; Oakland, 15. Time of game, 1:55. Umpires: Flinn and Phyle.

NEW YORK, 2; BROOKLYN, 1

NEW YORK, Sept. 24.—The New Yorkers kept a little closer to the championship today when they took a victory from Brooklyn 2 to 1. The game was a tight pitchers' battle between the two veterans, Mathewson and Ruelbach. The New York star yielded more hits, but he beat better. At several stages a hit would have beaten Mathewson, but the veteran was at his best in the pinch. Both clubs launched three hits in the fourth inning when all the scoring was done. Hits by Wheat, Thome and Smith, with Wheat's steal of second produced a run for Brooklyn in the first half. New York promptly tied it when Myers tripled to deep right and scored on Fisher's wild throw to the plate. The winning run came over a minute later when Mordecai strolled, took third on Snodgrass' single, and scored on Doyle's sacrifice fly. Myers slightly hurt his hand while at bat in the ninth, and retired in favor of McLean. Score:

	1	2	3	4	5	6	7	8	9	10
New York	1	0	0	0	0	0	0	0	0	1
Brooklyn	0	0	0	0	0	0	0	0	0	1

Measure and Conservation of Underground Waters

What would happen to the business man who regularly credits annual extra banknotes? In the one case, financial losses with a portion of his necessary resources are being suffered, in the working capital? With equal certainty, other a valuable natural resource is what will happen to the community, being depleted and its availability destroyed. Yet many of our California ground water supply? The two questions and others are unknowingly facing such a situation. With rapidly increasing demands for water and shortages of funds for new development, the natural action is to sink more wells. But is this method always wise and one which will not lead to a disastrous situation in the future?

Past experience shows that heavy pumping or unlimited development of artesian water is dangerous. Water levels in wells have lowered so greatly that the cost of pumping has brought

excessive financial burdens upon the community. Such a result involves not only the municipal water system but surrounding farming interests depending upon the same source for irrigation. The community is therefore not only cutting off its water supply but destroying the industries upon which its existence depends. In fact, the overdevelopment of ground water supply is

the condition in an underground reservoir from which the draft does not exceed the safe limit. If now the other pump he started the water level will drop still lower until only one of the suction pipes locate sand and leaves to draw water. Then with only one pump operating, the level will remain fixed again. If the suction pipe is lowered into the water the level can be still further reduced and eventually the reservoir could be pumped dry. This is the situation in an underground reservoir which is being over-pumped.

Returning to practical conditions, an underground reservoir can be described as a great water-tight basin, usually represented by a valley, which is filled with porous alluvial material. This material absorbs a portion of the water in contact with its surface no precipitation and stream flow and transmits it to the lowest level where the water, which has not been intercepted by wells, finds an outlet either into surface stream or into the air by evaporation. Water pumped from the basin, if it does not return again by percolation, decreases the flow of this stream and brings about the shrinking of the swamp area. In actual practice it is found very difficult to prevent loss by evaporation from the surface of a swamp area. Hence the limit to the amount of water which can be developed by pumping is the amount of water absorbed by the gravel less the unavoidable ground water losses. This limit of pumping should not be exceeded if the reserve is to be held and water levels kept within economic pumping depths.

The ultimate source of supply of underground reservoirs is rainfall upon the surface of the valley and upon the surrounding mountains whose drainage is tributary. This water enters the gravel by percolation either directly from valley rainfall or from stream flow and irrigation water. The great quantity of water which stream channels or lined irrigation ditches will absorb is well known as hard to keep constant, passing, however, it might be stated that the measurements by the United States Geological Survey on a number of Southern California streams indicate losses as great as 1000 inches in every mile of channel.

The water thus absorbed sinks downward to the general water plane and then moves laterally toward the lowest part of the valley where it escapes through natural outlets. Some of the escaping water appears in springs and seeps which gather and join to form a living stream flowing from the drainage outlet of the valley. A very small amount may escape as underflow. In most cases by far the larger part is lost by evaporation from the moist soil and vegetation which exists in the lowest part of a valley. The process of evaporation is so difficult of detection, slow or sound that it is hard to realize its importance. Yet in many of the underground reservoirs of Southern California more than 75 per cent of the unused supply is lost by evaporation from soil and plant surfaces and even in Central California the loss is seldom less than 50 per cent. The rate of evaporation from some types of water-loving vegetation exceeds that from the same area of open water surface. From moist soil the rate is nearly as great as from water. Since evaporation from water varies from four to six feet in depth, per year in various parts of the state, it is obvious that enormous losses must occur by this process.

HOW MUCH IS SAFE? The determination of the amount of water which can be safely pumped from a basin is a problem requiring specialized experience and technical training as well as judgment. It involves first a careful study of the geology of the containing basin as well as of the material which fills it. Then the sources of ground water supply must be ascertained and suitable locations for control measures must also be determined and their arrangement planned. Finally a study of the existing wells in the basin must be made.

Even with all the necessary data at hand careful study and broad experience and judgment are necessary to correctly interpret the results.

The better understanding of the principles governing ground water has led to methods of conserving and increasing these supplies. The knowledge that seepage from stream channels is a source of supply suggested the possibility of artificial stimulation of absorption from the wasted winter floods. This idea has gained wide application through Southern California and its practicability is being demonstrated in a number of localities. The California Conservation Commission recognizing the economic importance of such work recently had a thorough scientific investigation made of the subject. The conclusions drawn from these studies are incorporated in the 1912 report of the commission strongly recommended underground storage as a method of conservation.

The principles involved are exactly similar to the storage of flood water in surface reservoirs—the voids in the gravel filled areas are the reservoir. This storage space is filled by diverting flood waters upon the ground surface. The stored water is withdrawn when needed by means of pumps or artesian wells.

There are great advantages in favor of subterranean storage. The capacity is very large and needs no dam to make it available. The irregularities of animal supply are balanced up so that the water stored in wet years becomes available in dry years. Furthermore the evaporation which occurs from the entire surface of an ordinary reservoir is limited to a very small area in the underground reservoir.

There are several methods employed for getting a greater absorption of flood water. The most common method and which has been used in the San Bernardino Valley for a number of years is locally known as "water spreading." This consists of diverting flood waters from the channel of Santa Ana River after it leaves its canyon and distributing it over the worthless gravel land adjacent to the stream in such a manner that it is absorbed as rapidly as possible. The federal government has set aside public land for this work and the interested water companies have purchased an additional area from private ownership. The water is diverted from the stream, carried in contour ditches to the land, then distributed into smaller ditches and finally allowed to spread out over the surface and sink into the ground. The best spreading ground has a gentle slope and an unbroken surface of fine wash material composed of sand and gravel. This work is accomplishing the annual storage of a volume of water equivalent to a supply of about one million gallons per day for approximately three months or a year, 1000,000,000 gallons. This water is removed immediately from the last ditch and wasted into the ocean. Another method, which is in use for a small basin in Little Creek Canyon near San Bernardino, is to sink shafts in the gravel into which flood water is diverted. This is an efficient method where the area of flood spreading ground is small. Still another way is to divert the water into tanks, allowing it to overflow from one into another. This also has special advantages.

There is no doubt that a properly planned and operated system for increasing the absorption of flood waters will accomplish increased replenishment of water at a reasonable cost in many of our underground reservoirs.

The possibility of increasing the artificial withdrawal from an underground basin by decreasing evaporation losses is also being demonstrated in many of the California basins. Over the last ten years the area of mine land has been permanently reduced in many of the basins as a result of increased development of ground water. A corresponding decrease in evaporation has resulted. This has accomplished conservation equally as beneficial as the

WAGING WAR WITH INSECT ENEMIES

Disease Carriers Fought As
Scourges In Many
Parts of World

The greatest war that is going on at the present time is not a war in which men side by side. It is a war in which insects are engaged in a battle which is being waged in ports. The biggest battles of today are with a much smaller foe than man. They are battles with insects.

Although unknown to many people, these battles in which men and insects are the combatants are adding a new chapter to the history of the world. South Africa is one of the greatest of these battle grounds. There hostilities are being carried on relentlessly. Locusts are one of the enemies in South Africa.

As soon as there is a swarm of insects, news is flashed to the Department of Agriculture at Pretoria. As a result a battle ensues with sprays of arsenic instead of rifles. The locusts, due to these battles, are being rapidly exterminated.

On the west coast of Africa a great campaign is taking place against a close relative of one of our own foes, the mosquito. In Africa it has been definitely established that the mosquito is the transmitter of three most terrible diseases—malaria, elephantiasis and yellow fever. If a man is bitten only once by a mosquito there may develop any one of these horrible diseases. The same methods are being used against the African mosquito as we are using here in the United States in a civil war against the mosquito. Hundreds of pounds are being dumped and other bodies of water are being covered by a thick oil.

A little fish known as the "million" is the weapon used in the great battle against the mosquito in West India and the Hawaiian Islands. This little fish is a natural enemy of the mosquito. The beneficial work of the "million" was first noticed at Barbados, whose lakes and streams were full of this small fish. Barbados did not suffer from the scourges brought by mosquitoes, but the adjacent islands, where the "million" did not live, suffered greatly. This suffering is diminishing since the introduction of the "million" into all ponds and streams that cannot be drained or covered with oil.

In the Panama Canal zone the conflict between man and insect has been remarkable. Man has won all of the battles. Yellow fever in all of its horrors, a direct result of germs carried by the mosquito, has been driven away from Panama by a successful war on the pest.

Another pest on which a great onslaught is being made is the tsetse. The record of this insect is but little less terrible than that of the mosquito—for among the diseases it carries is the sleeping sickness for which there is no cure and which has swept away whole communities. The tsetse has killed more than 200,000 in the Uganda protectorate alone.

The tsetse fly is being fought by burning bushes around the margin of rivers and ponds and around cities and encampments. The men of Africa are wearing a sort of sticky flypaper on their backs in the lands where the tsetse fly swarms, and millions are being attracted and killed by this method.

Here in the United States we have already made great progress against the fly and the mosquito, whose dangers have just been recently realized. The war against these terrible tiny foes will not only make civilized countries healthy, but will vastly improve life and conditions and open up civilization part of the tropical and semi-tropical countries.—Chicago Tribune.

INCORRECTLY LABELED

"I had always thought the public servants of my own city were the freshest on earth," says a New York man, "but a recent experience in Kansas City has led to a revision of that notion."

"One afternoon I dashed into a rail station of that town with just half a minute to buy my ticket and enter a train for Chicago—I dashed through the first gate and, pointing to a certain train, asked hurriedly of the gatekeeper:

"Is that my train?"

"Well, I don't know," replied he, with exasperating deliberation. "Maybe it is, but the cars have the company's name on them!"—Harper's Weekly.

storage of flood water, for whereas this water formerly wasted into the atmosphere, it is now being pumped and used for beneficial purposes. There are many basins where extensive development of water can be made by decreasing evaporation losses.—Charles H. Lee, in Little Missouri Municipalities for September.

LEGAL NOTICES

NOTICE TO CONTRACTORS
Pursuant to an order of the Board of Supervisors of Fresno County, duly made and entered in its minutes on September 15th, 1913, notice is hereby given that the Board will receive sealed bids up to the sum of two o'clock P. M., of October 7th, 1913, for the construction of a County Road, 4½ miles in length in Sections 13, 14 and 21, T. 14 S. R. 27 E. M. D. & M., and more particularly described as a continuation of the Sand Creek Road, and shall consist of two divisions, No. 1 and No. 2.

Division No. 1, commencing at a point 2½ feet south of the northeast corner of the land required in Section 13 T. 14 S. R. 27 E. M. D. & M. at the County Line between Fresno and Tulare Counties and running thence westerly and northerly to an intersection with the old Visalia-Millwood road T. 14 S. R. 27 E. M. D. & M.

Division No. 2, commencing at a point in the Visalia-Millwood road where division No. 1 ends and running thence along said road through junctions with said No. 1 and the old S. R. 27 E. M. D. & M. in a southwesterly direction to the junction of the completed Sand Creek road with said No. 1 at a 1½-mile road near the center of Section 21 T. 14 S. R. 27 E. M. D. & M. together with the culverts, turnouts, etc., all in accordance with printed maps, plans and specifications prepared by the County Surveyor, hereinafter referred to as the "Contract," now on file with the Clerk of said Board to which bidders are hereby referred.

All bids must be accompanied by a certified check in the amount of ten per cent of the bid, made payable to the Clerk of the Board of Supervisors as a guarantee that the proposed bidder will, within ten (10) days after the acceptance of his bid enter into a contract and give the required bond in accordance with the authority performance of said contract.

All bids must be sealed and addressed to the Clerk of the Board and marked "Proposal to construct Sand Creek Road."

The Board reserves the right to reject any and all bids.

D. M. HARNWELL,
County Clerk and ex-officio
Clerk of the Board of
Supervisors of Fresno
(Seal)

by A. D. EWING, Deputy.

NOTICE OF ASSESSMENT.

The County of Fresno, a county, a corporation, principal place of business, Bakersfield, Fresno County, California. Location of property, Fresno County, California.

Notice is hereby given that at a meeting of the Board of Directors of said company, held on the 15th day of Sept. 1913, an assessment (No. 11), of ten dollars (\$10) per share was levied upon the capital stock of the said corporation, payable immediately to the treasurer, the Farmers' National Bank, at Fresno, Fresno County, California.

This stock upon which this assessment shall remain unpaid on Saturday, Oct. 25th, 1913, will be delinquent and advertised for sale at public auction and unless payment is made thereon, will be sold on Saturday, Nov. 29th, 1913, at 10 o'clock A. M., to pay the delinquent assessments, together with cost of advertising and expense of sale.

Dated Fresno, Calif., Sept. 18th, 1913
J. C. ADAMS,
Secretary of said Corporation.

Office of 22 Oil Company, a corporation, principal place of business, Fresno.

Notice is hereby given that at a meeting of the Board of Directors of the Twenty-two Oil Company, a corporation, at a regular meeting on said Board, held at the principal place of business of said corporation, located in Fresno, on September 1913, an assessment known as assessment No. 6 of 3½ of a cent on the unassessed capital stock of the above named corporation was levied, said assessment due and payable to J. G. Roberts, Treasurer of said corporation at Modesto, California, or before the 13th day of October, 1913. Said payment to be made in United States Gold Coin, and no stock upon which this assessment shall remain unpaid on said date, will be delinquent and unless paid, to date of sale, will be sold at the office of said corporation, as aforesaid, on Friday, the 31st day of October, 1913, at 10 o'clock A. M., to pay said delinquent assessment, together with costs of advertising and expense of sale.

E. A. WILLIAMS,
Secretary of Twenty-two Oil Co.
Room 209-1-2 Land Company Bldg.,
Fresno, California.

DELINQUENT NOTICE.

Office of The Azores Oil Company, principal place of business, Hanford, Kings County, California.

Notice: There is delinquent upon the following described stock on account of assessment No. 11, as levied on the 25th day of August, 1913, the several amounts opposite the names of the respective stockholders as follows:

And in accordance with law and an order of the Board of Directors made on the 25th day of August, 1913, so many shares of stock, part of the stock, as is necessary to be sold at public auction at the office of the Company at Hanford on the 3rd day of October, 1913, at 10 o'clock P. M., to pay the delinquent assessment, together with costs of advertising and expense of sale.

R. T. GRIMSHAW,
Secretary of the Azores Oil Company.

NOTICE OF ANNUAL MEETING OF THE STOCKHOLDERS OF THE FRESNO, HANFORD & SUMMIT LINE INTERURBAN RAILWAY COMPANY.

The regular annual meeting of the stockholders of the Fresno, Hanford & Summit Line Interurban Railway Company, a corporation, will be held at the office of the Company at Fresno, Fresno, State of California, at Room 201, Russell Building, in said city on the 25th day of September, 1913, at the hour of 2 o'clock P. M., for the purpose of electing a board of directors to serve for the ensuing year, and for the transaction of such other business as may come before the meeting.

Dated September 15th, 1913.

C. S. LEE,
Asst. Secretary of the Fresno, Hanford & Summit Line Interurban Railway Company, a corporation.

In the Superior Court of the County of Fresno, State of California, Section One, Oil Co., a corporation, plaintiff vs. Southern Pacific Co., a corporation, Southern Pacific Oil Company, a corporation, Sunnyside Oil Co., a corporation, Zenith Oil Co., a corporation and Zenith Oil Co., a corporation, defendants.

No. 16215. Short & Sutherland, attorneys for plaintiff.

The people of the state of California, plaintiff in the action against you in the Superior Court of the County of Fresno, State of California, within 30 days after the service on you of this writ summons, if served within this county; or within thirty days if served elsewhere.

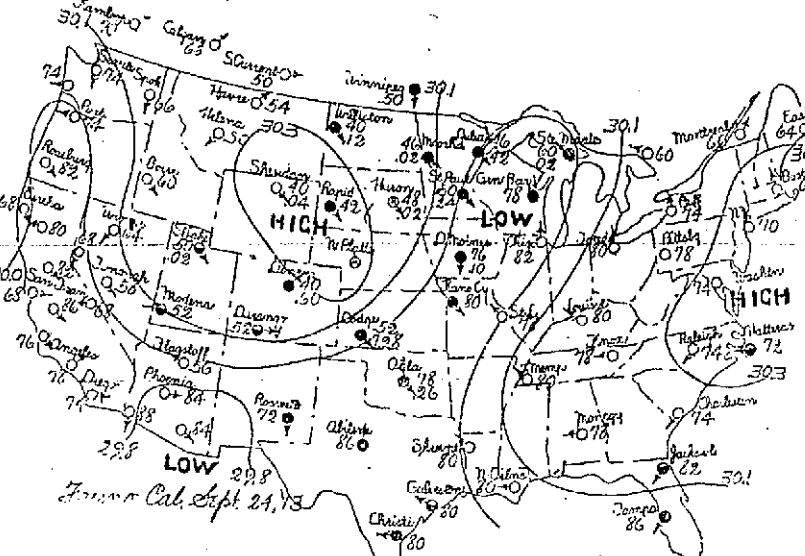

You are hereby directed to appear, and answer the complaint in an action entitled as above, brought against you in the Superior Court of the County of Fresno, State of California, within 30 days after the service on you of this writ summons, if served within this county; or within thirty days if served elsewhere.

You are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for my money or damages demanded in the complaint, as arising upon contract, or will apply to the court for such relief demanded in the complaint.

Gives under my hand and the seal of the Superior Court of the said county of Fresno, State of California, this 11th day of July, 1913.

D. M. HARNWELL, Clerk

GENERAL CONDITIONS.
Clear sky was reported generally from

stations between the Pacific and the Gulf on unfavorable reports of conditions in the steel and copper industries. The sharp break in the London market was followed by reports of price shading here which however were denied. Bear traders met with little opposition in hammering the list.

Bonds were irregular. Southern Pacific collateral was strong, being increased by reports that the government would have to separate Central Pacific and Southern Pacific.

Total sales of bonds, par value, \$2,000,000.

United States 2's declined 1/4 on call, and the registered bonds sold at 90 compared with 97 on the preceding sale.

RECORDED DEEDS

C. A. Wilson releasing mortgage of October 21, 1911, Anna B. and Harry A. Donahue deed to Mrs. Lydia E. McKenzie lot 3 in block 2 of Wilson's North Fresno tract subject to building restrictions and trust deed by the grantors for \$1,622 and additional amount not exceeding \$6,000.

Mary D. Hartigan to W. M. Johnson, lot 10 of city block 23 on Edmonston street, 100 feet northeast from westerly corner of the block, 50x125.

San Francisco and Fresno Land Company to August C. Hanson of Cecilia, lot 18 in block 43 of Kearney Boulevard Heights.

Mrs. Carrie Thomas to J. F. Ewing, lots 15 and 16 of residential lot 8 of Kearney

H. H. Holland to O. D. Atkins, lots 43 and 44 in block 1 of Callegan addition.

John Miller to Morris E. Arnold, lots 6 and 7 in block 4 of Arlington Heights.

George R. Andrews to G. W. Pearson all of the fractional block E of Fresno.

OUTSIDE TOWNS.

Jacob Rosenthal to C. L. Gates, lots 12-14 in block 23 of South Villa addition to San Joaquin and Fresno City Company.

C. L. Gates to Joseph F. Dewitt, lots 12-11 in block 11 of South Villa addition to San Joaquin.

COUNTRY PROPERTY.

Samuel L. Heisinger trust deeds to Union Central Life Insurance Company 140 acres of the northwest quarter of 24-14-14 (excluding the south half of the southwest quarter of the northwest quarter) for \$3,200. Also the northeast quarter of 24-14-14 (the south half of the southwest quarter of the northwest quarter) for \$3,200. Northeast quarter of 24-14-14 for \$3,200, northeast quarter of 24-14-14 for \$3,200, southeast quarter of 24-14-14 for \$3,200. Also the northwest quarter of 24-14-14 with a portion of the south half of the northwest quarter of 24-14-14 for \$3,200. And the northwest quarter of 24-14-14 with a portion of the south half of the northwest quarter of 24-14-14 for \$3,200.

Feeding that verged in semi-parade showed itself in the wheat pit late in the day. Opportunity buying on large scale by leading concerns rallied wheat prices somewhat during the final hour, but bearish sentiment prevailed in the end.

Corn succumbed with wheat. Lower European prices and diminished spring trade here cut some figure in the decline.

CHICAGO—Heavy receipts at Winnipeg and apparently unlimited quantities to follow pulled down wheat prices here today, notwithstanding the previous five day decline. The market closed, however, 16¢ to 18¢ less than low. Corn finished 16¢ to 18¢ off, oats unchanged to a setback of 4¢ to 5¢, and provisions less expensive by 2¢ to 3¢ to 12¢.

RIVAL INTERURBAN PROMOTERS CONFIDENT OF CLOVIS ELECTRIC

Granger Well Pleased With First Day's Work; Success Assured

That he was well pleased with the support given him the first day of his endeavor to secure rights of way to Clovis with a bonus of \$12,000, was the statement made last night by S. Granger, promoter of an interurban line from Fresno to the foothills of the Sierra Nevada mountains. Granger declared that no rights of way were signed as he did not ask any land owner to sign a contract, but that everyone along the proposed route was willing to deed the required thirty-five feet of property for the line.

Granger said that from one man he could have secured a bonus of \$2,000 without the asking, but that he was not yet ready to have the deeds executed and turned over to the First National Bank of Fresno.

Granger left Fresno bright and early yesterday morning in his machine and went to Clovis, where he was joined by a number of business men and ranchers. Granger said last night that a little informal meeting was held there and he was assured of the support of the Clovis people.

Granger said that the day he was promising at the time he was given the right of way and the manner in which pledges were made yesterday assures him that the people are with him.

"I have the money back of me," said the promoter last night, "and will announce the names of the financiers when the present line is in shape. This thing will be done in the open, but at this time to make known to the general public the names of the moneyed men would be a little premature. The men have been over the line, are California residents, and know exactly what they are investing their money in. A small bond issue will be necessary, but before I go before the railroad commissioners everything will be in first class condition so there will be no delay. I promoted one interurban line out of Fresno, even if it did take five years, and I left it at a loss when it can be built."

Granger says that he expects to have no trouble in obtaining the desired right of way and that the manner in which pledges were made yesterday assures him that the people are with him.

Granger said that he had been promoting the Clovis line for about three months.

WOMAN ACCOMPLICE IN JAIL BREAK TO BE FREED

Mrs. Kate Manning Admits Smuggling Saw Into Jail With Bananas

Sheriff Says He Has Not Sufficient Number of Deputies

Declaring that she had been swayed by the repeated pleadings of her husband and that she purchased the little saw in Kutner-Goldstein's store and smuggled it to her husband in a bag of bananas, Mrs. Kate Manning yesterday made a complete confession of the part she played in the daring attempted escape of James Manning and J. D. Wheeler from the county jail yesterday. However, however, Manning made no confession to District Attorney M. E. McCormick, and he announced that according to present plans the woman would not be prosecuted.

He said that while the woman was an accomplice in the crime, she did not realize the gravity of her acts, and to take her from her husband and send her to state's prison would be almost as big a crime as had been committed. He also brought attention to the fact that justice had not been cheapened as the felons did not escape.

Manning and Wheeler were taken into the district attorney's office yesterday and they made statements. Whether the present charges against the men will be dropped or they will be prosecuted for breaking jail is a matter that had not been determined yesterday.

Sheriff McSwain, who is investigating the case, said yesterday that he did not have enough men to use at the jail. He declared that he could not always station a deputy with a visitor to the jail, and that the jailor was too busy with other work.

"I have not enough deputies to handle the civil and criminal work," said the sheriff, "and on visiting days a continual stream of people come to the jail. We can't let one visitor in at a time because we would never get through, and to have a deputy with every visitor would take more men than I have got."

It was learned yesterday that the prisoners had taken about ten days to saw through the iron slats over the cell. As only the two men in the one cell could escape, it is not supposed that any other prisoners planned to get away, as they would have to break out of the cell into the hall and then into Manning's and Wheeler's cell before they could get to the roof.

WANTS TO LOCATE WATER IN COUNTY

A. B. C. Kalkurst of San Francisco writes the supervisors that he has been informed that they are "anxious to locate water on county property," and for that reason he has addressed them to call their attention to a friend John June, who is visiting him in the city, "and who in a most extraordinary and reliable manner is able to locate water and bring it to the surface."

The supervisors do not wish to bring any water to the surface; the offer will not be taken advantage of for the present.

Rogers Announces He Has Bonus Almost Signed; Hard At Work

J. B. Rogers, promoter of an interurban line to Clovis for Mahoney Brothers of San Francisco, announced last night at the Hotel Picane that he had secured contracts and pledges for 70 per cent of the required bonus of \$12,000 and that he was nearest of another cent of the right of way on one route and 80 per cent on another route.

Rogers is seeking rights of way on two routes, so that if one route fails he can drop back to the other without having wasted any great length of time.

Rogers declared last evening that he was meeting with success along his route and that he had contracted and pledged with the ranchers that they would give him a bonus in proportion to their acreage and a right of way to the best route.

Rogers' plan is not only to build an interurban line from the county seat to Clovis, but also to have the line pass through the center of one of the prettiest badlands in the state.

Rogers said that Mahoney Brothers had the money to finance the road, but that they required a bonus of \$16,000 merely to insure their interest on their investment of a quarter of a million of dollars for two years.

The engineers and railroad experts, who went over the route, informed Mahoney Brothers that it would take two years for the road to take care of its fixed charges.

"I should know by next week whether I will be able to secure rights of way or not," said Rogers, "and then will be no delay about the electric road if everything works out all right.

Mahoney Brothers will construct the road, put it in operation and not one cent will be asked of the people along the road until thirty days after the road is in service. Then the bonus can be paid in cash or 25 per cent down and the rest in one, two and three years.

"My backers are known to the public and I have nothing to conceal.

It's either I get the road through or I don't get it and that all depends upon the people. I have been given until about the first of the month to see what I can do on the project. Mahoney Brothers have another investment under consideration, but are waiting for my report."

Rogers has been working on the project since last July, but it was not until a week ago that he made public announcement. He has seen many of the large land owners along the line and has secured support from them.

POLICE DECIDE ON BLUE WINTER SUITS

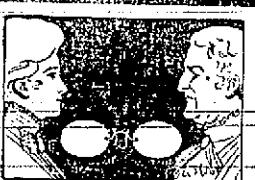

Advocates of Caps Win Over Helmets; Various Arguments Offered

At a meeting of the members of the police department yesterday afternoon it was decided to purchase blue uniforms for this winter and the police and fire commissioners will be asked to purchase the highest grade of blue serge cloth by the bolt. The patrolmen will then buy their material from the bolt and it will be made by local tailors. The officers decided that the best material was to be chosen in the last run. A movement is underfoot to change from the cap back to the helmet, but it was defeated yesterday by a vote of 5 to 7. Some of the patrolmen were not present and it will be taken by another meeting. Patrolman Castner favored the helmet because it kept the water during a rain from running down his back. Sergeant Bradley said that with the caps a person couldn't tell a policeman from a street car conductor. The cap advocates had just as strong arguments.

ABSENT 26 MONTHS; NOW WITHOUT WIFE

After an absence of 26 months Italy trying to perfect a flying machine, Jean Stora returned to Fresno, without a machine, having lost the patient and discovered that in his absence he had lost his home as his wife had secured a final decree of divorce. Stora appeared before Judge Church yesterday protesting against paying to the support of a daughter, but was ordered to pay \$15 a month, beginning next Monday. He returned to Fresno hi November, 1912.

End of The Month Sale of Women's

Garments Begins At 9 O'clock This Morning

Already head over heels in active Fall selling, the Big Store plans this first Fall sale, demonstrating once again the Kutner leadership in money saving possibilities and its reputation for the style store of Fresno. Busy days here, and stocks already going down rapidly hence these special prices to keep assortments ship shape. These are worth while sales, because all is absolutely new and fresh and prices are lower because of the Kutner policy of progressiveness.

\$50 Trotteur Suits \$35

A distinguished combination model, exactly as sketch shown above.

The coat is made of novelty cloth, in navy blue, with smart vestee of plaid. The skirt is of a rich Scotch plaid, same as in vest. One of our exclusive \$50.00 models. Special for \$35.00.

\$50 Novelty Suit \$35

A stunning model for fall is the novelty suit shown above. It is made exactly as sketched here in a midnight blue waffle pattern. Pinch sponge.

The buttons and rich silk lining harmonize beautifully and the suit is considered one of the cleverest ideas for fall wear. A \$50.00 value for \$35.00.

\$50 Belted Suit \$35

Russia contributes the smart ideas carried out in this suit. It is made exactly as shown here, in a soft brown finished chevrot with wide belt of same material, and butterfly sleeves. The skirt is draped conservatively, and altogether it is a pleasing model. A \$50.00 model that we have marked to \$35.00 during this month-and-a-half sale.

\$50 Cutaway Suit \$35

Another striking suit is a blue soft finished chevrot of exquisite texture. The coat has the fashionable yoke effect with butterfly sleeves. The skirt is draped conservatively, and altogether it is a pleasing model. A \$50.00 model that we have marked to \$35.00 during this month-and-a-half sale.

Women's Magnificent Three-Piece

Suits--Exclusive Styles--\$75.00

Suits that we bought to sell at \$100.00, but for rapid selling have reduced to \$75.00.

Nothing could be more graceful or charming than a gray chevron model or a rich purple beautifully embroidered. There are several other distinguished models that will please the woman looking for a suit exclusively.

\$17.50 Astracan

Coats For \$15.00

There is plenty of choice for individual choice among them, too--tailored suits,

inter-tailored suits, novelty collars and cuffs and so on. We might give you a big description of them, but we prefer that you come and see them for yourself.

\$7.50 Novelty

Coats For \$5.95

New winter coats of rich black Astracan, made with collar and cuffs of black plush. The lining is of a good quality satin in Copenhagen blue or golden brown.

Women's 95c

House Dresses 39c

One to a customer only. No C. O. D. or telephone orders.

On these women's percale house dresses, all sizes, regular 95c values for 39c each.

Misses' \$1.75

College Blazers 95c

Every girl should be the happy possessor of one of these warm, cozy college blazers. They come in the popular college stripes and the regular \$1.75 values are now 95c.

\$15.00 Tailored Suits \$7.95

A truly wonderful opportunity for the woman who is seeking a moderately priced suit.

Many women who feel they do not care to pay more than \$16 into a suit will snap at this opportunity of getting a \$15 suit for \$7.95.

They come in fine serge in correct tailored styles. Surely this is a most propitious time to secure your suit at \$7.95.

Women's \$7.50 Dresses \$3.95

A certain little group of women's service dresses in styles rather on the conservative side. When we marked them at \$5.95 and \$7.50 they were priced lowly, but at this extreme low price of \$3.95 women will be buying them in twos and threes.

Women's \$4.95 Chiffon Waists \$2.95

Dozens of exquisite chiffon waists waiting to go out into new homes at these clipped prices.

They come in wanted colors with dainty trimmings of lace and buttons and are our regular \$4.95 waists reduced to \$2.95 for this sale.

\$5.95 Messaline

Waists \$3.95

Messaline waists that are unusually attractive.

Some are made with pretty vest effects trimmed with lace and embroidery.

Special price 95c.

\$4.95 Black Silk

Taffeta Waists \$1.95

For the women who wear black, and who are needing a smart black waist this is indeed a saving opportunity.

The waists are mostly made with long sleeves and high necks of a good quality of black silk taffeta.

Regular \$4.95 waists for \$1.95.

Women's \$17.50 Dresses \$12.95

You're surely safer at a store like Kutner's if you want the correct styles and want the style without high prices.

Clever, new ideas that you will find worked into the attractive thing shown in the little novelty silk and wool dresses; values to \$17.50 for \$12.95.

Children's \$1.50 Dresses 95c

A big opportunity for mothers to save on smart little tub frocks; made of dependable ginghams in checks and stripes, etc., in various simple styles for children.

The sizes range from 6 to 14 years and the regular prices from \$1.00 up to \$1.50. Special price 95c.
